ASKS OPEN SESSIONS IN MEET

Democratic Solons Want People To Be 'In' On Arms Parley

URGES BORAH FOR AMERICAN DELEGATE

Harrison Lauds Senator Lodge In Offering Amendment To Measure

WASHINGTON, Aug. 17.—The American delegates at the disarmament conference are directed to make every effort to secure open sessions in an amendment to the bill appropriating \$200,000 for the expenses of the conference offered in the senate today by Senator Pat Harrison of Mississippi, acting Democratic leader.

Harrison declared, in presenting his amendment, that the American people are entitled to know what their representatives are doing to bring about world disarmament. He paid tribute to Senator Lodge, Republican leader, who has been appointed on the American delegation, and expressed the hope that Lodge would do his utmost to bring success to the conference.

"I have not changed my views on disarmament," declared Lodge, "but there must be a general disarmament—a general reduction. I shall do everything in my power to fulfill those duties in the office to which the president has appointed me."

Referring to the appointment of Lodge, Harrison declared that "many have the impression that it is a reward for his leadership in defeating the greatest plan to bring about disarmament ever devised."

The appointment of Senator Borah of Idaho, author of the disarmament amendment, as an American delegate to the conference was warmly urged by Harrison.

JAPS SEEK SETTLEMENT OVER SHANTUNG.

WASHINGTON, Aug. 17.—Japan will renew her attempt to settle the Shantung question by direct negotiation with China before the opening of the Washington disarmament conference, it was reported in official circles here today.

SAYS WOMAN SHOULD BE FACTOR IN PARLEY.

SAN FRANCISCO, Aug. 17.—"The superior logic of women," is the force to which the world must look to shape the results of the disarmament conference, H. Wickham Steed, editor of the London Times, declared in an address here to the San Francisco women's center.

The argument of the dollar, he said, is ultimately the only one that appeals to men and the world is weary of men's conferences which apparently end only in more complicated squabbles.

"Women," he said, "do not want war and will earnestly try to prevent it. It is the influence of their superior logic that should be brought to bear upon the disarmament conference."

KOREAN WILL MAKE PLEA AT WORLD PARLEY.

SAN FRANCISCO, Aug. 17.—"The cry of Korea for independence, stifled at Versailles by Japanese diplomacy, will be heard at the disarmament conference," said Dr. Synge Rhee, former president of the Republic of Korea, today. He hopes to be admitted as a delegate to the Washington conference. "My message to America and to the nations is simply this—give Korea and China independence and let a balance of power in the Far East be established," he said.

Dr. Rhee, who holds his nominal office by virtue of the secret vote of Korean provincial representatives, has been exiled in Honolulu since 1912. He arrived here on the steamer Maui and will leave shortly on a lecture tour of the country before attending the disarmament conference.

WOMAN WILL HAVE SEAT IN ARMS PARLEY.

WASHINGTON, Aug. 17.—President Harding gave assurance today that women will have a part in the disarmament conference.

Whether a woman will sit as a delegate or as a member of an advisory board which the president contemplates appointing, is still to be decided apparently.

This opposition was taken today by the president after the visit of officials of the League of Women Voters, who asked him to appoint a woman to the disarmament committee and attacked Miss Alice Robertson, congresswoman from Oklahoma, who opposed such an appointment.

Penrose Plans To Rush Tax Bill Ahead of Tariff Measure

WASHINGTON, Aug. 17.—The senate finance committee will probably complete the tax revision bill before the tariff bill, Senator Penrose of Pennsylvania, chairman of the finance committee, stated today.

Penrose announced the committee will consider laying aside the tariff bill as soon as the revenue measure comes over from the house.

It may be necessary to give the treasury experts additional time in which to perfect the American valuation plan adopted by the committee as the basis of the tariff bill, he said.

WAREHOUSES AND GRAIN ELEVATOR SWEEP BY FIRES

Flames Destroy Big Virginia Peanut Crop; Lightning Starts Missouri Blaze; Loss \$1,500,000.

NORFOLK, Va., Aug. 17.—Several hundred thousand dollars' worth of peanuts went up in smoke at Smithfield, Va., today when five peanut warehouses, two piers on the York River and several other buildings burned. The total loss was \$1,000,000.

KANSAS CITY, Aug. 17.—Fire destroyed the Kelley Milling plant early today after a bolt of lightning ignited grain dust in a chute between the grain elevator and the mill building. Damage amounted to \$500,000.

Irish Face New War Peril

CHARGE OWNERS OF RAILROADS IN PLOT TO EVADE LAW

WASHINGTON, Aug. 17.—The direct charge that the Erie railroad has formed a fictitious corporation to take over its shops at Marion, Ohio, for the purpose of evading the labor provisions of the Esch-Cummings law, was made today by Representative Huddleston, Alabama.

During a session of the house interstate commerce committee on the railroad bill, Huddleston said many railroads were openly disobeying the law and orders of the railroad labor board.

PREDICTS INCREASE IN RAILROAD RATES.

WASHINGTON, Aug. 17.—Passenger fares and freight rates will have to be increased throughout the entire United States if railroads are permitted to follow the lead of the Erie railroad in selling its repair shops to private interests, Secretary Davison, of the International Association of Machinists, said here today.

Repair of locomotives and cars in private shops is three times as expensive as when done by the roads themselves and means the wasting of millions annually, Davison charged.

BOARD DELAYS DECISION OVER WAGE TANGLE

CHICAGO, Aug. 17.—Decision of the United States railroad board on overtime rates of pay and working agreements was delayed today.

The board announced the "ruling will not come for several days, due to delay in having it printed.

Representatives of the "Big Four" brotherhood and switchmen's union and the Association of Western Railroad executives will not conclude their conference until late tomorrow, it was announced.

Labor and rail management conferred on the following proposals of employees:

That the Western executives put wages back to the June 30, 1921, level; that the railroads stop requesting abolition of time and a half for overtime, and that no more applications be made to the railroad board for wage reductions.

Railroad union leaders here today prepared to protest to the United States railroad labor board against the transfer of the Erie shops at Marion, Ohio, to private control under non-union conditions.

More than 500 men in the Marion shops have refused to enter the employ of the Railway Service company, formed by Marion bankers and businessmen to operate the shops under contract according to information received by B. M. Jewel, head of the railroad department of the American Federation of Labor.

A strike threat was contained in the information on the situation at Marion sent by union leaders there to Chicago.

The labor board will receive the protest and act on it at the earliest moment, it was stated by an influential member.

At the same time other railroads are making ready to follow the ample of the Erie, it was learned by the United Press. If the labor board holds that the Erie is acting within its rights, it can be stated that at least four big carriers will follow suit immediately.

Solons Plan Fight On Wood As Governor of Philippines

WASHINGTON, Aug. 17.—The selection of Major General Leonard Wood for the office of governor general of the Philippine Islands will meet with opposition in congress, it was indicated today by Chairman Kahn of the house military affairs committee.

Kahn called on Weeks and advised him that the Republican members of the committee were opposed to passing special legislation asked by the administration to enable Wood to retain his active army rank and at the same time serve in a civil capacity. Kahn told Weeks that he doubted whether the house would pass the bill.

Word was received from the University of Pennsylvania that the trustees had agreed to Wood's request for a year's leave of absence so that he could serve in the Philippines for one year. Wood is provost of the university.

SUSPECT IN PRIEST SLAYING COLLAPSES UNDER LONG STRAIN

SAN FRANCISCO, Aug. 17.—William Hightower, held for the alleged murder of Father Patrick Heslin, collapsed today in his cell at the Redwood City jail.

He fell helpless, in a limp heap on the floor.

Authorities believed his nerves were shattered and expected him to make a confession.

A verdict of death from either a gunshot wound or by a blow from some unknown weapon, inflicted with murderous intent, was returned today at the inquest into the death of the Reverend Father Patrick Heslin, murdered Colma priest.

The inquest was held at Colma.

The coroner's jury made no attempt to name the murderer. Authorities today believed they had drawn a net of evidence around Hightower from which he cannot escape.

What they consider the final blow to Hightower's defense was delivered yesterday when Mrs. Marie Wendell, housekeeper for Father Heslin, identified Hightower as the "muffled stranger" who called the priest from his Colma home, on the night of August 2 to "minister to a dying friend."

Police expressed the belief that as far as Hightower's story is concerned, "Dolly Mason" is a myth and said they believed it could be proven. They did not deny that there is a "Dolly Mason," but claimed that whoever she might be, Hightower merely used her as a character in his weird story.

Considerable time was devoted during the last twenty-four hours to tracing the career of Doris Shirley, whom Hightower alleged had been his companion. Police found she had lived in Salt Lake City and Denver, and Denver police claimed that she was known there as Edna "Mickey" Carroll and had been detained by them in connection with a \$25,000 robbery of the Stockyards National bank, but was later released when she proved an alibi.

Other witnesses declared that the crew did all it could but that apparently the crew members knew little about handling boats.

Fred Helmer, boatswain of the Alaska declared at an inquest held today over the body of Ruth Yost of Portland that the crew lacked experience, but that all of its members were willing and anxious to save every life and cast aside all petty disputes when the ship struck Blunt's reef.

Deny Charges Steamer Crew In Fight Over Money After Wreck

SAN FRANCISCO, Aug. 17.—Denials of the charges of Thad Robinson, quartermaster of the wrecked steamer, Alaska, that the crew fought over money before saving the passengers, were made at today's session of the hearing on the Alaska case.

John Travers West, of San Francisco, rescued passenger, was the chief witness. He declared that there had been no disagreements over money, as far as he knew, and he believed that he was in close touch with all that went on.

AWAITING TELEGRAM TO DETERMINE AGE

County Clerk J. M. Backs was expecting a telegram today from the father of Sybil Roache, who, yesterday applied for a marriage license here and was refused by the authorities, who acted on word from the girl's mother.

The girl came here with Wallace C. Hendricks, 24, of Tucson, Arizona. Mrs. Pat Roache of Redondo wired the police here to arrest and detain the couple if they applied for a license.

About 3:30 yesterday Mrs. Roache arrived. She hotly scored Hendricks for eloping with her daughter and told the authorities that the girl was only 16.

Both Hendricks and the young woman declared that she is 18 and that Mrs. Roache is trying to stop the marriage because she has a dislike for her daughter's suitor.

Hendricks wired the father of the girl at Rillito, Arizona, for the date of her birth. He asked that the answer be sent to the county clerk here.

County Clerk Backs said today that if the girl's age is established by a telegram from her father he will issue the license, provided of course it is again applied for.

BASEBALL PLAYER HURT CLEVELAND, O., Aug. 17.—J. Walker, Athletics first baseman, was hit by a liner from Jameson's bat in the first inning of the Athletics-Indians game today, knocking him unconscious. The ball struck Walker in the head, bounding almost fifty feet away, Walker was out ten minutes.

TROOPS RUSH TO ERIN AS BREAK OVER TERMS IS FEARED

United Press Leased Wire LONDON, Aug. 17.—The whole Irish situation once more trembled in the narrow balance between peace and war today.

All English eyes, no less than Irish were fixed on Dublin when the Daily Eireann, in whose hands the fate of the country lay considered the impassioned words of their leader, Eamonn De Valera, who today rejected unqualifiedly the British terms of peace.

Meanwhile war clouds rolled up along the darkened horizon, with black and tans hurrying back to their posts and British troops returning to Ireland.

United Press Leased Wire DUBLIN, Aug. 17.—We cannot and will not accept the British government's terms," De Valera told the Daily Eireann today.

Addressing the Sinn Fein parliament today the republican president declared:

"There seems to be some doubt in the present day at my speech, yesterday as to whether we accept or reject the terms offered us by Mr. Lloyd George.

"There should be no doubt in anyone's mind.

"We cannot and will not, on behalf of this nation, accept those terms.

"There is an Indian proverb which says, 'fool me once, shame on you; fool me twice, shame on me.'

"The Irish people are not going to be fooled this time.

"I would willingly suggest that the Irish people give up a good deal to free themselves from future external trouble," De Valera continued.

"There is no enmity felt in the south towards the people of the north. We are ready to give them every reasonable measure for national head-quarters.

The Sinn Fein president declared that the statement that Ireland had been offered dominion home rule contained two falsehoods.

Hits British Offer.

"There would be no Ireland but two broken pieces," he declared. "Also Ireland has never been offered the same status as the other British dominions."

"We are willing to submit the question between Great Britain and Ireland to external arbitration," De Valera declared. "The Irish people will not flinch because more arms have been ordered to this country."

"We have no enmity towards Britain. It is as a separate nation that we are talking today. It is as such that we must enter into these or any negotiations."

ALIEN SEAMEN ON AMERICAN SHIPS

INDIANAPOLIS, Ind., Aug. 17.—That the employment of Chinese, Japanese, Portuguese, Spaniards, Greeks and Germans as seamen on American vessels is forcing American seamen out of employment, is the charge made by members of the American Legion at Boston, who have appealed to national headquarters of the Legion to assist them.

The American seamen say it is impossible for them to exist on the wages paid the aliens. "Can a married seaman support a wife and be an American on \$500 a year?" one of the complaining seamen asks.

It is charged that the American ship operator hires German crews at Hamburg, lands them in this country and hires them on the return trip as American seamen.

SAILOR IS ACCUSED OF CARRYING WEAPON

E. Brooks, 24, who says he is a sailor from the submarine base at San Pedro, was scheduled to be brought before City Recorder Heathman this afternoon on a charge of carrying a concealed weapon.

Brooks was arrested last night by Nightwatchman Parker, who found him acting in a suspicious manner in the alleyway back of the city hall.

Upon searching Brooks, Parker found a .32 caliber automatic pistol and a flashlight. The young man refused to give an account of himself other than to say that he came from San Pedro.

SAN DIEGO'S FIESTA TO OPEN TOMORROW

SAN DIEGO, Aug. 17.—San Diego's big midsummer carnival begins tomorrow night, continuing to Monday. A street carnival will inaugurate the festivities.

Friday the scene of merriment will shift to Balboa park. State societies of San Diego will gather there and have extended invitations to delegations from every state society in California.

President's Railroad Aid Bill Wins Committee Approval

WASHINGTON, Aug. 17.—The administration bill, extending financial relief to the railroads, was ordered favorably reported to the senate today by the interstate commerce committee.

Senators La Follette, Wisconsin, Republican, and Stanley, Kentucky, Democrat, voted against the motion.

Senator Townsend, Michigan, acting chairman of the committee, will report the bill to the senate today, but expressed little hope of its passage before the proposed recess, August 24.

During the discussion of the bill Senator Kellogg said that Eugene M. Meyer is endeavoring to interest big financiers in the formation of a syndicate to take over the financing of the railroads. Kellogg said it was a tremendous undertaking but if successful would relieve the government entirely of the relief burden.

RUTH GETS 45TH HOME RUN, KELLY MAKES HIS 20TH

Weinecke of White Sox Babe's Victim With One Man on Base.

CHICAGO, Aug. 17.—Babe Ruth knocked his forty-fifth homer of the season in the sixth inning of the Yankee-Sox game here today. One man was on base. Weinecke was on the mound for the Sox.

NEW YORK, Aug. 17.—George Kelly of the Giants hit his twentieth homer of the season in the first inning of the New York-Cincinnati game with the bases full. Rube Marquard was the victor.

BOOM FITTS FOR HEAD OF AMERICAN LEGION

LOS ANGELES, Aug. 17.—According to advices yesterday from San Francisco, Northern California hosts of the American Legion are preparing to boom Byron B. Fitts of Los Angeles for national commander of the organization, at the October convention in Kansas City. He is now state commander of the Legion in California.

Fitts has attracted widespread commendatory attention by his handling of Legion affairs and its activities in behalf of former service men. As a result of his appearance before the legislature, various relief measures were advanced in a way to make the lot of the California veteran envied by those from other states.

TWO CENT BREAD.

SOUTH BEND, Ind., Aug. 17.—Bread at two cents a loaf was the public's plunder today in a war between local bakers and an outside bread corporation.

"30" BULLETINS

John Uhler, financial genius, who said he was going to build a flatiron building at Anaheim, has departed to fresh pastures with a \$3 shirt and a \$100 check from the cafeteria company that leased space in the proposed building. Further, it is said, Uhler's hotel bill also remains unpaid.

While moving a metal tank, a laborer named Adams, employed by A. B. Moody of Fullerton, was electrocuted when the tank came in contact with a live wire today.

To Protect Woman.

Burch's presence at the Glen at the time of the murder, would thus be accounted for as a co-incidence, his motive for going there being that he wished to protect Madalynne in case Kennedy, instead of ascertaining to make good his marriage pledges, attempted to take advantage of her presence in the lonely cottage.

If the evidence of the two ragged men is sustained, the prosecution's case, it was freely admitted today, would be considerably weakened, for, although the prosecution claims to have evidence that Burch was at the Glen at the time of the murder, it has no evidence that he was implicated in the shooting other than by inference, or that he ever had a shotgun while in Los Angeles.

Madalynne's surprise: Burch's fright at being caught at the scene of the murder, under suspicious circumstances and his precipitate flight; Madalynne's assertions to the effect that Burch was innocent and that she could clear herself at any time, and that the only reason she did not do so was because she wished to "shield someone else" who might become involved in circumstantial evidence, if she talked would all be explained if the presence in the case of the "other woman" is sustained.

Jealousy as Motive.

The defense today redoubled its efforts to locate this woman. The prosecution also began an investigation into Kennedy's past life, although still maintaining that such

NEW TWIST GIVEN TO SLAYING

Defense In Kennedy Case Links 'Other Woman' With Murder

PROBE INTO LIFE OF SLAIN BROKER

Husband of Accused Woman Opens Bitter Fight For Her Release

United Press Leased Wire LOS ANGELES, Aug. 17.—

The entrance into the Kennedy murder case of "another woman" either a married woman or "somebody's sister" loomed today.

The defense is probing John Belton Kennedy's life and investigating what actually took place over some period of time at Kennedy's so-called "love cottages," one, the scene of the tragic murder at Beverly Glen, the other at Balboa beach.

Kennedy is said to have used the assumed name of Mr. Kendall and to have visited these bungalows a great deal before his death with another woman as his companion.

The defense, working on this information is said to be building up the theory that either a husband or brother of the "other woman" became aware of the affair, and that it was because of this knowledge that the "ragged men" entirely unconnected with Madalynne Obenchain or Arthur Burch, appeared and killed Kennedy.

Mistaken Identity.

Madalynne's presence, under such circumstances, would have been entirely co-incidental, the defense will probably point out. The "ragged men" by this theory, believed that Kennedy was entering the bungalow with the "other woman."

Evidence has already come out that the night of the murder was the first time that Madalynne had visited the Beverly Glen cottage since her arrival in Los Angeles four weeks before.

BALBOA 'LOVE NEST' BARED IN SLAYING

(Continued from page one)

evidence rather than benefiting the defense would aid the prosecution's theory that Madalynne's jealousy for another woman was the motive for the murder.

The search for the barrel of the old fashioned shotgun, the butt of which was picked up in the ocean near Santa Monica, was practically discontinued today.

The pawnbroker who sold it testified that it was an old weapon, variously damaged, and failed to identify Burch as the man who purchased it. Gunsmiths have doubt that it was in any condition to have been fired without exploding the barrel.

OBENCHAIN FIGHTS PLAN TO SEIZE TRUNK.
LOS ANGELES, Aug. 17.—The "offensive defense" of Madalynne Obenchain opened today.

Ralph Obenchain, chief counsel for his beautiful ex-wife, now defendant in one of the west's most sensational murder trials, planned to appear in court and demand an injunction to prevent Sheriff William Traeger from seizing a trunk belonging to Mrs. Obenchain.

The trunk has just arrived here from San Francisco, consigned to Mrs. Obenchain and addressed to the local hotel which was her home prior to the Kennedy tragedy.

Traeger notified the hotel authorities that he intended to seize and open the trunk.

Obenchain notified Traeger that he intended to apply for an injunction "to prevent seizure without a search warrant."

It was intimated that officials of the sheriff's office would have difficulty in obtaining a search warrant, if they did not know definitely what they were searching for.

Saw Burch In Auto
The substance of the testimony given authorities by Charles Summar, the "mystery witness" in the case, was made public today for the first time.

Summar claims to have met Burch while Burch was driving a rented roadster away from the vicinity of Beverly Glen, supposedly shortly after the midnight assassination.

Burch's headlights were so bright that I blocked the road and made him stop," Summar said. "I told him to dim those lights and we had quite a little argument. I saw him plainly during the course of our alteration, and recognized his photographs as soon as they were published in the Los Angeles newspapers."

"The argument between Burch and myself took place on the highway near Santa Monica."

Locate Mystery Visitor
Another figure in the Kennedy murder tangle—the hitherto unknown man who visited the rich young broker in his offices during the night of July 24, a week previous to the murder—admitted his identity here today.

He is Arthur Meyer, publisher of a film trade journal, and allegedly a friend of Kennedy's. Meyer said that he simply "dropped in at Kennedy's office to write a letter." He denied any knowledge of Kennedy's death or the circumstances leading up to it.

Meyer is not held.

Seek "Other Woman."
Search for the "other woman" thought to be implicated in the case was begun today.

Information in the hands of both the prosecution and the defense is said to point to the fact that young Kennedy, the murdered man, was either engaged or enamored of another woman.

The prosecution is seeking to establish her identity and obtain her as a witness for the purpose of showing jealousy as the motive for the tragedy.

With the "other woman" identified, the state would materially bolster its theory that Madalynne Obenchain knew Kennedy's love had turned against her and had called in Arthur C. Burch in a desperate attempt to force Kennedy to marry her. A wild midnight scene, they would attempt to prove, wherein Burch threatened Kennedy, a quarrel ensued, and Kennedy was killed.

Driven to Desperation.
The defense, holding to the truth of Madalynne's story that she caught a glimpse of two ragged men after the gun flash that marked Kennedy's death, also wants to locate the "other woman" to set up a theory that it was through her that the two murderous strangers appeared.

The defense will claim, it was strongly intimated, that the "other woman" was driven to desperation by the knowledge that Kennedy, urged by Burch, was about to make good his promise and marry Madalynne.

"Madalynne's story of what took place in the tragic hour at Beverly Glen is true," asserted Ralph Obenchain, her counsel, today. "We will not only stand by it in every detail during the trial, but will force the prosecution to attempt to locate the real murderers instead of devoting all their time to trying to make out

QUEER FEELINGS DEPICTED BY KIWANIS

Recital by members of the Kiwanis club of the most embarrassing moments in their lives was a feature of today's Kiwanis club meeting at St. Ann's Inn. The names of those who gave their experiences were drawn from the registration list. A. N. Zerman, J. P. Baumgartner and O. A. Haley were the men who attempted to recall and tell the moments when they were most embarrassed.

Zerman declared that his experience was when he was a small kid going to school. He was scheduled to recite "Scatter Smiles," and he declared that he was the only smileless individual in the room when he went upon the school rostrum to recite.

Baumgartner's most embarrassing moment was when he was confronted with an oil painting of Major Jas. S. Rollins, who founded the University of Missouri. Baumgartner was going through the building in a more or less cautious manner and when he pushed open the door of the library the picture confronted him and he nearly collapsed. Baumgartner admired Rollins yet for some reason he had been awed by him.

Haley remembered being out once with a handsome young lady. An elderly gentleman approached them. Something about the man caused Haley to make a more or less derogatory remark about the man. He was quickly informed by the young lady that the gentleman was her father.

A. J. Crookshank and Horace Fine told of their vacation trips. Crookshank has been at Bear Lake frequently of late. Fine passed his vacation at Avalon and in Fresno county.

A movement to organize a Kiwanis indoor baseball club was started on the suggestion of Fred Blauer. Cotton Mather was made manager of the team, and he declared that he would organize a club that will "eat them alive" when opponents come onto the diamond.

George Wells was chairman of today's meeting. C. A. Barrows drew the attendance prize and will be chairman next week.

OXNARD.—The total assessment for the city of Oxnard as shown by the figures of the city clerk reach \$3,299,595 for the year 1921, as against \$3,049,240 for 1920. This means a gain of \$180,355. An agricultural taxpayers' league has been organized here. It will make recommendations to the county supervisors in making up the budget for the next fiscal year.

a circumstantial case against Madalynne and Burch."

The sheriff's office on a writ, late today obtained possession of a trunk consigned to Mrs. Madalynne Obenchain, at a local hotel.

Possession was obtained over the strenuous protest of Ralph Obenchain, counsel for his ex-wife.

The sheriff's office made no immediate move to open the trunk.

REPORT WOOLWINE NOW IN CHICAGO.

LOS ANGELES, Aug. 17.—District Attorney Thomas Lee Woolwine, who left here several days ago on a "mysterious trip," was today reported to be in Chicago investigating a number of secret clues on the Kennedy murder case.

SAN FERNANDO VALLEY FAIR DATES CHANGED

One hundred and fifty of the most prominent business men in the town of San Fernando at an enthusiastic Fair Booster meeting, have changed the dates for the San Fernando Valley fair from Sept. 11-18 to Sept. 19-24.

The change of dates was found advisable owing to the fact that the former dates conflicted with the date of the State Fair at Sacramento. The Northern Fair will close on September 11th, which would not allow for shipment of stock to San Fernando in time for the opening day.

With the new dates set the San Fernando people feel that they can give the fullest co-operation to the State Fair and will receive the fullest measure of co-operation in return.

WOMAN SAYS SHE HAS RIGHT TO TOLL

Mrs. Murieta Morris, who conducts a resort in San Juan canyon, and who has been attempting to collect a toll of \$1.50 from each motorist who passes through the O'Neill line gate, leading to the forest reserve, thence on to her place, called upon Deputy District Attorney Roland Thompson today and contended that she had authority from the government to collect such a toll.

Mrs. Morris claims that she built and is now maintaining a road leading from the O'Neill line gate across O'Neill's property and the government reserve. Thompson told her that while she might have done that with the permission of the government and O'Neill, she did not, in his opinion, have any authority to collect toll.

Last Sunday afternoon Mrs. Morris caused the arrest of Milton McLees, a Hollywood real estate operator, on a charge of battery. She alleges that McLees became abusive and struck her when G. W. Westfall, her foreman, attempted to arrest him on a charge of trespassing on her road without paying toll.

McLees was taken before Justice of the Peace Denari at San Juan Capistrano. His trial was set for Saturday morning at 9 o'clock.

According to McLees he was stopped at the point of a gun held in Westfall's hands. McLees said that he took the gun away from Westfall and then submitted to arrest. He denies that he struck Mrs. Morris or anybody else.

The district attorney has written Jerome O'Neill of Oceanside and the forest service to determine just what authority Mrs. Morris has, if any, to exact a toll.

McLees said that he had an oil claim on the forest reserve. He also told the authorities that several motorists have been detained on the reserve by Westfall, who, he declares, is threatening and sulky in his manner.

GOATS HAVE THEIR LITTLE WORRIES, TOO

SANTA CATALINA, Aug. 17.—Autumn looks dreary to the goats of the island. Even the last half of August is without a ray of hope. And when it comes to thinking about winter, well, the goat mind simply cannot endure it.

Long ago when Cabrillo discovered San Pedro and the other domes came in and settled the country in the name of Spain some one brought a daddy goat and a nanny over to Santa Catalina and left them there. For hundreds of years descendants of these goats have roamed heart-

BIGAMY CHARGE HEARING, HELD TO ANSWER

Immediately after Jesse Cunningham of Los Angeles, was given a preliminary hearing in the justice court here this morning and bound over to the superior court for trial on a charge of bigamy, Mrs. Florence Trabant, mother of the defendant's second wife, fainted in the courtroom. She was revived about ten minutes later.

Only two witnesses were called to the stand. They were the two women that Cunningham married. The first witness was Miss Violet Trabant, 706 West 50th street, Los Angeles. She testified that she married Cunningham here December 4, last, Judge Cox performing the ceremony. Miss Trabant said that Cunningham told her he had been divorced from his first wife.

Mrs. Hazel Cunningham, first wife of the defendant, told the authorities here that she intended to stand behind her husband through his trouble. She said she would lend him both her financial and moral support.

She testified that she and Cunningham were married at Meadville, Pa., October 2, 1914, and that they lived together until October 3, last. She declared that she had not even brought suit for divorce.

While Miss Trabant was on the stand one of her statements was contradicted by the mother of Mrs. Cunningham. The witness was asked how long she lived with Cunningham. She answered that they lived together until last May, when she discovered he was married.

"Oh, what a lie!" said Mrs. Cunningham's mother, who was sitting beside Mrs. Cunningham in the spectator's seats.

"Here, here, none of that," said Judge Cox. "There is a witness on the stand now. You'll have your turn later."

After Cunningham married Miss Trabant they lived at the home of her mother. She told Under Sheriff French at the time she swore to the complaint charging Cunningham with bigamy that he made a good salary but still they did not have enough money to "get by."

Through letters found in one of Cunningham's coat pockets Miss Trabant said that she discovered that he had a wife in Los Angeles. She found later that Cunningham was trying to support both her and his first wife.

"I'm glad I was arrested," said Cunningham to Under Sheriff French as he was being brought here from Los Angeles. "I've been paying my first wife \$50 per month and trying to support a second one on what was left out of my salary. The burden was too heavy."

The defendant was bound over to the superior court in default of \$1,000 bail.

whole and fancy free on the island, with no care other than to elude a few steady hunters.

But now all is different. Out of the very skies, those skies which have always reminded the gay goats of their native Castile, comes death.

The goats are worried.

It all started when Aviator Hallo-way, who flies around the island in his hydroplane, decided to shoot goats from on high. His aim was good. He brought down his goat.

And now the late summer, the autumn and the long winter is draped in gloom for the goats of Cabrillo.

Yet if I simply go to sleep
I shut out every trace of it.

City and County

"The roads go east, the roads go west" and always the trail is well followed, no matter whether toward or from the setting sun. Among the dwellers and the tourists of this community who have recently answered the call to be up and away, seeking the places of the horizon, are Mr. and Mrs. J. B. Doan, Mrs. C. A. Post and Mrs. T. M. Post of Orange, who left via the Salt Lake for Omaha, Nebraska. Mrs. B. L. Halderman of Santa Ana also left recently for Omaha, while J. C. Hagerty of Long Beach was in this city, en route for New York City. Mr. and Mrs. N. H. Leonard left for Minneapolis by the same favored route, while M. D. Cheney, Mr. and Mrs. J. D. Kelley and Mr. and Mrs. C. J. Strook left for Denver.

Many Santa Bernardino people who have taken cottages at Laguna Beach for the summer months will view Laguna's Peace Pipe Pageant. Among Santa Bernardino people who are spending the summer months at Laguna Beach and are privileged to attend the artists' spectacle are: Mrs. Serman Batchelor and children, Brenda and Neal; Judge Edward Wall and mother, Mrs. Henry Good; Mrs. Newcomb and daughter, Sara Leal, Mrs. J. W. Bishop and Miss Mary Barton.

Santa Anans who want to avail themselves of the special Chamber of Commerce excursion to Mt. Lowe Friday afternoon and return by moonlight must make their ticket reservations by tomorrow evening, says J. C. Metzgar, secretary of the chamber. The special car will leave here at 1:20 p. m. and returning will leave at 8 p. m. It is necessary to sell fifty tickets to insure the special car. At noon today only fifteen tickets had been sold. Those wishing dinner at Mt. Lowe should advise the secretary. It is necessary to know how many will want the accommodation so that preparation may be made. The round trip fare is \$3.75.

The semi-monthly social dance of the I. O. O. F. lodge will be held at the lodge hall tonight, according to announcement today.

Plans were today completed for the appearance on Sunday night of the Rev. D. L. Cole, general southern evangelist of the Methodist Episcopal church, South, before the combined congregations of the Protestant churches of Santa Ana when they gather at Birch park for the weekly union meeting. The Rev. Mr. Cole has won the sobriquet of "Great Southern Evangelist" through his work in the south. His appearance before the audience will mark the close of the three day convention of the Epworth League Conference of Southern California and Arizona. The musical part of the evening's program will consist of community singing which will be in charge of the Rev. Stanley Ballen, assistant pastor of the First Presbyterian church.

Dr. J. H. Pullin has temporarily closed his down-town office and hospital because of injuries sustained in a recent auto accident. Dr. Pullin says he hopes to resume practice from his home office, 1806 North Broadway, in a few weeks.

Missourians of Orange county are anticipating a jolly time at the annual picnic of the Missouri Society of Orange county to be held at the Orange county park on Saturday of this week. All former residents of Missouri are urged to make plans for attending the gathering. Coffee, sugar and cream will be provided by the committee in charge of arrangements.

Mr. and Mrs. James G. Welch were week-end visitors in the city, coming up to see their nephew, William Overshiner, who leaves tomorrow for San Francisco, where he will be stationed with the U. S. Coast Geodetic Survey.

VIENNESE CARRYING LATCHKEY, NOW

VIENNA, Aug. 17.—The famous "latchkey law" has been passed and Vienna concierges may now go to bed and stay there without having to let in late homecomers. As the size of the average front-door key in this country prohibits carrying in pockets, they are being made of aluminum and fold on a pivot.

FIND BODY OF DEATH

Clad in a bathing suit, the body of a woman about 35 years old, was found floating early this morning in Newport bay, one mile east of the Newport pier and one-half mile off shore, according to a report to Charles D. Brown, county coroner.

The body was identified as that of Mrs. John Benson of Oklahoma City, Okla., by the staff of the Newport hotel, it is understood. Mrs. Benson registered at the hotel yesterday.

A fisherman on his way to San Pedro discovered the body and immediately reported to Newport officials. Investigation disclosed facts which lead the authorities to believe that the drowning was accidental.

The body had been in the water about one hour, according to report. At the hotel it was found that Mrs. Benson's room had been occupied last night, and it is believed that the woman went at an early hour to take a swim in the bay.

Tide-rips were strong this morning, according to fishermen, and they are of the opinion that the woman was caught in the current and was not strong enough to battle her way to shore.

Mrs. Benson impressed the hotel staff as being well-to-do, and according to the employees of the hotel displayed no nervousness or other signs that would indicate that she was contemplating suicide.

A telegram addressed to Mrs. John Benson was received at the Newport hotel shortly after the body was found. The telegram is believed to have come from the woman's husband. It was held intact to await the arrival of Coroner C. D. Brown, who was on his way to Newport this afternoon.

CASUALTIES ARE MANY IN ITALIAN TEBLOR

ROME, Aug. 17.—Serious earthquake shocks are reported from the Italian colony of Eritrea, on the African shore of the Red sea.

A telegram from Asmara, the seat of the governmental residence of the colony, says four people have been killed and a score injured at Massawa, on the Red sea coast. Several houses have collapsed and others have been damaged in that town, while other casualties are reported from near-by places. The Italian minister of colonies has ordered that aid be immediately dispatched to the scene.

ARREST PLANE PILOT WHO FLIES OVER CITY

DAVENPORT, Iowa, Aug. 17.—Lieut. Jim Ingram, pilot with a "flying circus" showing here this afternoon at the Mississippi valley fair, and A. S. Hall, staff photographer for the Davenport Democrat, were arrested on a charge of flying over the city within 2000 feet of the business section. This is the first arrest here of alleged violation of aerial traffic laws.

NEW YORK, Aug. 17.—The Sun's financial review this afternoon said: Again today the bears had little cause for complaint. There was a considerable reaction through a good part of the first hour of the session, which was pretty general except that, as usual, the steel and the even tenor of their way, bending slightly here and there, but in the main holding their own.

The wheat market covering, however, to neutralize in considerable measure persistent selling for the short account. The steel at most only yielded fractionally and Crucible was even stronger at intervals. Movements within the petroleum group were mixed. The motors were inclined to weakness likewise on announcement of further cut in motor car prices of two three companies. Virtually all losses were made good in the last hour. There were substantial net gains in numerous cases.

SAN FRANCISCO MARKET

SAN FRANCISCO, Aug. 17.—Poultry: Broilers 32@33; Large Hens 25@27; Ducks 18.

PRODUCE—Potatoes: Street prices; White fancy \$2.00@2.50.

ONIONS—Yellow new \$2.00@2.25; New Red \$1.50@2.00; Green \$1.50@2.00.

GRAIN—Barley spot feed per cental \$1.20@1.30; Shipping \$1.30@1.45.

NEW YORK STOCKS

NEW YORK, Aug. 17.—The stock market continued heavy today, overnight news having had little bearing on prices.

Mexican Petroleum was off 5-8 at 90 1-4.

Other important stocks showed the following declines:

Studebaker, 71, off 1-2; General Electric, 110 1-2, off 1-8; DuPont, 48, off 1-4; Sinclair, 17, off 1-4.

Dividend meetings were to be held during the day in the case of American Sugar and New York Air Brake. Adverse action was expected in both cases.

Prices included:

Central leather, 26 1-4, unchanged; American Sugar, 62 1-2, unchanged; S. Steel, 73 1-2, off 1-8; Asphalt, 42 1-2, off 1-2; U. S. Rubber, 45 5-8, off 3-8; Southern Pacific, 76 1-2, off 1-8; S. E. American, 41 1-2, up 1-2; General Electric, 110 1-2, off 5-8; Baldwin, 72 3-4, off 1-2; Reading, 68 3-4, unchanged.

Pressure continued on the general list throughout the morning, with a number of individual issues showing particular weakness.

Mexican Petroleum was especially hard hit, breaking to a new low at 89 1-4. Failure of the Mexican Petroleum interests to support this stock is causing no little surprise among traders.

The market closed strong.

Closing prices included:

U. S. Steel, 73 1-2, up 5-8; Crucible, 53 3-4, up 1-4; Baldwin, 74 1-4, up 1-4; American Car and Foundry, 122 1-2, up 1-2; Mexican Petroleum, 89 1-4, up 1-4; Pan American, 41 3-4, up 3-4; Chandler, 41 3-4, up 1-4; Studebaker, 72 1-2, up 1-2; U. S. Rubber, 45 5-8, up 1-2; United Fruit, 102 3-8, up 5-8; Northwestern, 65 1-2, up 1-2; American Sugar, 63 3-8; General Electric, 112, up 1-2.

LIBERTY BOND MARKET

NEW YORK, Aug. 17.—Liberty bonds closed: 3 2s \$8.75; Second 4s \$7.66; First 4 1-4s \$7.80; Second 4 1-4s \$7.72; Third 4 1-4s \$7.84; Fourth 4 1-4s \$7.84; Victory 3 3-4s \$8.74; Victory 4 3-4s \$8.74.

DAIRY CONCERN TO CLEAN UP OLD DEBTS

FRESNO, Aug. 17.—Directors of the San Joaquin Valley Milk Producers' association, a co-operative concern of valley dairymen, which has been in the hands of a trustee for several months, have approved a plan submitted by the trustee, J. W. Guilberson, under which the claims of all outside creditors will be liquidated on the basis of 50 cents on the dollar in cash and the balance in association notes.

Efforts on the part of the directors and trustees to bring the concern back to solvency, after a fire, which destroyed one of its plants, are meeting with success.

FINAL CONCERT OF SEASON TOMORROW

In preparation for the final public concert of the season under the auspices of the Santa Ana city council, members of the Orange County Automobile Trades' council band have prepared a splendid program to be given at Birch park tomorrow night at 8 o'clock.

The program will open with Mecham's march, "The American Patrol," to be followed by a song, "Little Threads of Happiness," and the fox-trot, "Molly on a Trolley."

A selection from Adolph Luder's famous musical comedy, "The Burgomaster," will occupy the next place on the program, and will be followed by "La Golondrina," by the Spanish composer, Serradell.

"Mile Modiste," by Victor Herbert, will be next on the program, after which Sullivan's "The Lost Chord" will be rendered as a baritone solo by E. B. Workman, thus offering a new idea in the evening's program, as no vocal numbers have been used before.

"The Star-Spangled Banner" will mark the close of the concert and of the series.

A recent change in the directorship of the band has been made, J. C. S. Garrick of Anaheim, who has been directing, having found it impossible to continue to give so much time as it required, has resigned, and Henry W. Schillinger of this city has been appointed to take his place. Schillinger has had twenty-five years' experience as band and orchestra director and is splendidly fitted, both by training and ability to take the place. The band members will continue the weekly rehearsals and plan to take a prominent place in the music life of the community. One important appearance of the new future will be at Huntington Beach at the county fair.

FARM TENANTS IN MINNESOTA ORGANIZE

PULDA, Minn., Aug. 17.—Farmers of this section who rent have formed what is believed to be the first farm tenants' organization. It was agreed that all tenants should demand the same rental agreements from owners for the year 1922.

The body placed the maximum rental for the coming year at one-third of the small grain, two-fifths of the corn, or \$4 cash per acre and \$4 cash per acre for good pasture and hay ground.

ENTICE INSANE WOMAN FROM BARRICADE

Enticed from her barricaded home at Newport by means of a ruse, Mrs. Mary J. Cushing was taken into custody by two deputy sheriffs and taken before the lunacy commission here today. She was adjudged insane and committed to the Southern California State hospital at Patton.

Mrs. Cushing nailed up the windows and doors of her home several days ago after threatening bodily injury to anyone who came near the place. According to neighbors she imagined that they were trying to get possession of her money and then kill her. The woman also contended that she owned the First National Bank of Newport.

Officers who took her into custody found the doors to the woman's locked and she refused to open them. A note purporting to have been written by the president of the Newport bank was slipped under the front door. The note invited her to the bank and requested her to fix her own price for the sale of the institution.

Mrs. Cushing read the note and then decided to go to the bank. As she stepped out of the door Deputy Sheriff Roy Ballard grabbed her. The woman struggled desperately, but finally was induced to enter an automobile.

ASKING FOR RECORD OF MARRIAGE HERE

County Clerk J. M. Backs today received a telegram from the Arizona Gazette, a newspaper published in Phoenix, Ariz., asking whether or not Irving T. Holland and Grace E. Cox secured a marriage license here.

Investigation revealed that the couple applied for a license here on July 27 and that they were married by Justice of the Peace Cox. It was also disclosed that a complaint has been issued charging Holland with passing a worthless check.

The complaint was sworn to by George W. Spencer, 304 Central building, Los Angeles. The check was for the sum of \$10.50 and drawn on the Valley bank of Phoenix.

Holland gave his age as 53 and that of his bride as 31 when they applied for the license. After Judge Cox had tied the knot Holland told him to mail the marriage license to the Angeles hotel, Los Angeles.

The complaint was issued two days after the wedding, but Holland has not been arrested. According to Judge Cox, the man was extremely nervous at the time of the wedding. The affidavit on which the license was secured shows that Holland is a cattleman.

The message from the Arizona paper did not reveal any sensational disclosure.

SANTA ANAN PAYS FINE

RIVERSIDE, Aug. 17.—O. N. Robertson, of Santa Ana, was arrested by Traffic Officer Lyle Sanard yesterday on the charge of traveling 35 miles an hour in an automobile on Colton avenue. He was fined \$10 in Justice H. C. Hibbard's court.

The Coats, Plush and Cloth, for Autumn

LUXURIOUS new coats showing the lines which fashion dictates for fall, the new, full ripple skirts which, by the way, are longer than for several seasons. The coats show an inclination to curve at the waistline. Many have fur collars, cuffs and bands—and embroidery is very much in vogue.

The Graceful Flare

of a three-quarter length coat of ULNA gives a trim air of distinctiveness to the wearer. The raglan shoulders are finished at the sides with button trimmed bands. Full silk lined. Belt is worn if desired.

Joplin Blue Bolivia

An elaborately embroidered coat, "fulled" to the waistline, full skirt, large open sleeves with storm sleeves inside.

Embroidered Oval Designs

completely cover a stunning coat made of Valiana cloth; the ovals are cleverly worked in red and navy with tiny nail heads. Large collar.

Salts-Pico Plushes

trimmed with Australian opossum—short plush coats with large fur collars, some have fur cuffs; in fact, the fur trimmings spell their huge success. Plush coats are all quite full in cut.

A Pollyanna Coat

—a beautiful coating is Pollyanna; this model is greatly heightened in tone by the liberal use of embroidery in Aztec designs on back, sleeves and collar. Fancy lining.

How Many Evenings Do You Spend at Home?

It is only human to want to rest when one is tired. And we unconsciously seek the most comfortable place we know of, after a hard day in

the store, the office or ranch. If our homes provide the comforts we crave, we stay at home. If our homes fail to provide

such comforts, we seek them elsewhere. Choose the right kind of furniture and you will have a home that will breed happiness, contentment and comfort. There's something inviting, hospitable, about a well furnished home that none can deny.

ness, contentment and comfort. There's something inviting, hospitable, about a well furnished home that none can deny.

Repairs—Upholstering

Your present furniture may be too good to sidetrack, and still not all you could wish for in appearance. Many people are putting it up to us to repair, renew or refinish their home furnishings, make new upholsterings, etc. There may be a timely suggestion in this for you!

Exchange Department

If you are contemplating replacing your old furniture with new, we will be glad to take the former in exchange and make you a liberal allowance. This offer ought to be a stimulus to many people who want better homes.

Workroom Service

In addition to repairing and renewing old furniture, one of the most attractive features of our workroom service is the making of draperies to order—a service that is growing every day. We also make window shades to order. You may have exactly the kind of windows you want.

Enthusiastic Home Builders

are attracted to the Horton furniture stock because of its newness, magnitude and confidence in its prices.

All of it is fine furniture, much of it is inexpensive, but all of it is fine. It is not a haphazard collection; it is not a lot of job lots; it is all carefully selected; it must be furniture that we can guarantee and stand behind.

Every piece is plainly marked with a price and no one can buy it for less, regardless of the amount of the purchase or any other influence.

We try to make ours "a store—and more."

Easy Payments

It isn't necessary for you to have a great deal of cash in order to properly furnish your home. A small initial payment is all that is required—then monthly, semi-monthly or weekly payments to suit your own convenience.

ITALIAN SLAYER SUSPECT BARES MURDER GANG

United Press Leased Wire
NEW YORK, Aug. 17.—New York detectives took up the search today in a dozen cities for members of the "Good Killers."

The search began after Bartola Fontana, a barber, admitting a murder committed by himself, implicated a band of six alleged hired assassins in sixteen killings.

Seven victims fell in New York and nine in Detroit, Fontana said. Unfolding the plots and machinations of the gang, which he said earned the name of "Good Killers," Fontana said his career began with a murder in Brooklyn fifteen years ago.

Paid Murder Gang
From that murder sprang a line of stabbings and poisonings which made the gang all powerful in the Italian underworld and brought it hundreds of thousands of dollars. Wealthy Italians with enemies they wished put out of the way giving the gang valuable commissions, Fontana said.

The usual method of the gang, he said, was to obtain control of youth-falls before they leave Europe. In various ways they worked on the unsuspecting immigrant, Fontana said, telling him that "the gang owns the United States" and he must obey its orders.

In a matter of fact way Fontana declared that the immigrant, but was the tool to commit the paid murder. If the immigrant objected force was used. Whether he obeys or not, his life was forfeit, Fontana declared.

Took Murder Pledge
"They would kill the immigrant just to be sure he wouldn't tell," Fontana was said to have informed police.

Fontana said he was forced into murdering Camillo Calzo when three members of the "Good Killers" thrust revolvers into his stomach and threatened to shoot if he did not swear to get the man.

Six other Italians were arrested on Fontana's story and were held today on suspicion of being connected with the Calzo murder.

WORLD DRY LEADERS TO AID STATE FIGHT

United Press Leased Wire
PASADENA, Aug. 17.—That California will be the scene of a contest of nation-wide interest to ratify the state prohibition enforcement act passed by the recent legislature, but held up by the wet referendum, became manifest today when former Congressman Charles H. Randall announced that the World Prohibition federation, American section, has decided to place its resources at the command of the dry forces in this state.

The federation is a confederation of twenty-one leading temperance, church and civic organizations of America and similar bodies in Europe and South America. Dr. Chas. Scanlon of Pittsburgh is international president of the federation and he is now in Europe to attend the international convention at Lausanne, Switzerland, which meets coincidentally with the sixteenth international anti-alcoholic congress this month.

Randall is an executive officer of the American section of the federation and has been requested to take charge of the California campaign to give this state a dry enforcement law. Randall will leave for San Francisco late today to confer with W. C. T. U. leaders from all parts of California upon plans of organization for the big fight.

He will also urge upon Major Roy Haynes, federal prohibition commissioner, who will reach San Francisco on Monday, the necessity of giving California careful attention in the selection of enforcement officers.

RUSSIAN WOMEN MUST WORK OR LOSE RATIONS

Note: Miss Eda Treat O'Neil, in the second of three articles on Russia, whence she has just emerged, tells how women are living there and how they are fighting the famine. Her third article will tell of the Russian children.

By EDA TREAT O'NEIL
Written for the United Press. (Copyrighted 1921, by the United Press.)

REVAL, Aug. 17.—Few women in Russia today are having an easy time of it.

"They tell me you're a teacher," a waitress in a Moscow guest house said to me the other day.

"We're all teachers waiting on table here," she said. "We had to find work when the schools closed for the summer. Otherwise we would have lost our rations."

The incident is characteristic. Every Russian woman is supposed to be a worker. Without a worker's card she hasn't the right to lodging, clothing, food, or transport facilities.

The teacher or the office employee has never been quite so well off here as the factory girl, who receives the same pay and payok (ration) as the factory workman.

The teachers and office workers receive scantier rations and their pay ranges from six to twenty-five thousand roubles monthly—not a vast sum in a country where an egg costs 1,000 roubles.

To add to the women's troubles there is a tendency to diminish the food rations, due to the present shortage, while increasing the pay.

The problem of the married woman and mother is less simple than that of her unmarried sister. She, too, must have a worker's card—the housework isn't considered a profession once the children are of school age.

Little sympathy is felt for the woman who objects on principle to doing housework.

I doubt if there are many women in Russia today who haven't learned to perform, quite as a matter of course, tasks, which before the revolution would appear difficult if not impossible.

PORTLAND, Ore., Aug. 17.—"I can remember nothing of what has happened since the Sunday before last when I charged that I murdered Dennis Russell, until I found myself on the train going to Spokane yesterday morning." Such was the statement of Dr. R. M. Brumfield made to examining physicians and officers in the insanity examination room at the county jail shortly after his arrival here early today.

Brumfield's appearance has changed but little. But officers say he certainly does not seem the same man who pitifully held out his hands for the manacles and pleaded to be taken back to Oregon "to face it all" when Sheriff Starmer claimed the prisoner in the Calgary jail last Monday night.

PORTLAND, Ore., Aug. 17.—Still preserving his almost sphinx like silence, Dr. R. M. Brumfield, en route to Roseburg, Ore., where he will be formally charged with the murder of Dennis Russell, arrived in Portland early today with Sheriff Starmer of Douglas county and was immediately rushed to the Multnomah county jail.

Dr. Brumfield, in a semi-stupor, either real or feigned, was closely guarded by Sheriff Starmer of Roseburg and Deputy Sheriff Webb to prevent newspaper reporters from questioning him. Manacled to Deputy Webb, he was whisked from the train on which he arrived from Spokane and Calgary and taken at once to the county jail.

Brumfield replied uncertainly to the single question put to him by newspaper men.

"How did you elude the Washington and Oregon authorities in getting into Canada?" he was asked.

"I don't remember," answered Brumfield before Sheriff Starmer and Deputy Webb could intervene.

While Starmer refuses to state positively, it is undoubtedly his belief that the Roseburg dentist is suffering from a mental aberration which may have obsessed him prior to the commission of the crime with which he is charged.

SENATE

Continues debate on good roads bill. Deficiency bill carrying \$48,500,000 for shipping board and \$200,000 for disarmament expenses expected to be taken up.

Interstate commerce committee expects to report administration bill extending financial relief to railroads.

Finance committee continues hearings on oil schedule of tariff bill.

TWO FOUND DEAD IN MYSTERY SHOOTING

SAN DIEGO, Aug. 17.—Two men are dead and mystery completely surrounds the killing in a lonely mountain community near here today.

Phillip Brown, 70, rancher, and Vincon Cuddelbach, 56, his employee, are the dead men. A coroner's jury held that Brown shot Cuddelbach while temporarily deranged, because of illness, and then committed suicide. However, there were no witnesses to the affair, and friends said they knew of no ill feeling between the two.

SERBIA MOURNS AS AGED RULER PASSES

BELGRADE, Aug. 17.—Pomp and homage denied him much of his life, King Peter of Serbia, at his funeral. The king died yesterday after an illness lasting most of the summer.

Prince Regent Alexander immediately ordered the country into mourning.

FIGHT LOOMS OVER SPRECKELS ESTATE

United Press Leased Wire
SAN FRANCISCO, Aug. 17.—Conflicting claims to the quarter million dollar estate of John D. Spreckels Jr., were made public here today.

John D. Spreckels sr., the father, filed a petition for letters of administration on his son's estate.

Following this action, John L. McNab, attorney for Sydia Wirt Spreckels, former New York actress, in a public statement declared that Mrs. Spreckels had cabled him from Paris that she was en route to San Francisco to claim the estate.

McNab declared that Spreckels left a will naming Sydia Wirt Spreckels, who is his divorced wife, sole executrix and the chief beneficiary.

Spreckels and his wife were divorced here last March.

MILLIONS INSURANCE WILL PROTECT FIRM

NEW YORK, Aug. 17.—Adolph Zukor, head of the Famous Players-Lasky Corporation, has taken out an insurance policy for \$5,000,000 in favor of his firm.

The names of the companies participating in the insurance, which, it was said, ranked as the largest ever taken out by an individual as a protection to his company, were not divulged.

H. B. Rosen, an agent of the New York Life Insurance company, is putting through the insurance.

TEN MILLION DOLLAR TRUST DEED RECORDED

A \$10,000,000 trust deed was recorded at the courthouse today.

The deed is given by the General Petroleum company to the Bank of California, National association, to cover ten-year 7 per cent notes totaling \$10,000,000.

Phone 237 for good dairy products, EXCELSIOR CREAMERY CO.

Canning peaches, Harry W. Lewis.

Betty Lou Goes Shopping

HOW delightful it is to be able to do all one's purchasing right here at home. I feel as though each of my shopping expeditions were a voyage of discovery, for I'm always finding something delightfully new in the Santa Ana shops. And people are so courteous and obliging here; it is just like one big family.

BETTY LOU.

IT seems a long time away, but I really, you know, Christmas is going to be upon us before we know it. This year I'm going to do something different in the line of Christmas cards. I'm going to send greeting cards with our name engraved on them, in addition to the usual good wishes. I think it gives such a pleasant "personal" touch. Where am I going to get them? At SAM STEIN'S of course. He's taking orders for engraving now.

YESTERDAY, when I went into Y. SHAFER'S MUSIC STORE to get some new opera records, I was surprised at the demand Mr. Shafer says there is for Caruso's records. I decided to be wise and stock up on them, so got four of his last ones. One of them, the "Serenata" is one of the most beautiful things I think I ever heard Caruso sing. It certainly seems wonderful to realize that it is possible to immortalize a great voice the way Victor is doing with Caruso.

IF I want to know where Anita is I just about three o'clock in the afternoon, all I have to do is drop into JAMES' CONFECTIONERY. She and some of her chums have formed the habit of indulging in one of James' delicious "Choc Malts" at about the same time every afternoon, and really, I often plan my shopping so as to join them, for those Choc Malts are perfectly heavenly. They're made with such thick, rich cream, and they do taste so good when it's hot and dusty outside and so cool and restful in James'.

Low heels will be the correct style for the smart slipper as well as the sport shoe this fall.

THEY have the most beautiful candlesticks at the D. L. ANDERSON china store, and such a delightful variety of candles to use in them. You know candlesticks are my hobby, and I'm always looking for unusual ones and for odd colors and designs in candles. I certainly am in my element when I'm in Anderson's for I know I'm going to be able to find some beauties for the odd corners in our new house. Cut glass candlesticks make such a pleasantly "different" wedding present, too.

I DISCOVERED the best place to get delicious doughnuts one day last week. It's the BAKE RITE DONUT SHOP, just next to the West End Theater on Fourth street. They make the doughnuts right in the window where you can watch, and not once do they touch them with their hands. And when I went in and tasted the sample they gave me—I ordered a dozen doughnuts right then, for I knew the family would welcome them. They have something new, too, doughnuts covered with chocolate icing, that are simply heavenly.

PRESIDENT OFFERS TRICK SCHEMES TO STABILIZE PRICES

WASHINGTON, Aug. 17.—President Harding is opposed to various trick schemes suggested for stabilizing international exchange, it developed today. He wants the return to normalcy in world finance to proceed by the slower natural methods.

Holding these views, the president goes into the international financial conference as proposed in a resolution by Senator King and does not intend to do so unless there should be a demand for it at the coming disarmament conference.

RAILROAD FIGHTING STEALING OF RIDES

C. S. Browne, local agent for the Union Pacific and Salt Lake system was today in receipt of a communication from A. S. Edmonds, of headquarters, to the effect that the rumor circulated that the Union Pacific system had issued an order that those found stealing rides on trains should not be molested, was without any basis of fact.

Edmonds stated that all the roads throughout the country are having trouble with the unusual number of the genius hobo, due probably to the general business depression, but that every effort is being made to discourage these men and keep them off the trains. Such efforts are successful with the passenger and the manifest freight trains, but are not so successful on the local freights because of their frequent stops, and the fact that the tramps have banded together in such numbers that it has been found almost impossible to keep them away.

\$12,879,480 SCHOOL FUND ALLOWED STATE

SACRAMENTO, Aug. 17.—Revised figures made public at the offices of Will C. Wood, superintendent of public instruction, on the average daily attendance of the elementary schools of the state for the year ending June 30, 1921, show an attendance of 429,316.

S. F. GIRL BRIDE BY BUDDHIST RITES

SAN FRANCISCO, Aug. 17.—"I shall do exactly as I please and so shall Carlos," was the philosophy of married life expounded today by Marie Parmelee Neuse, art student and San Francisco's first Buddhist bride.

Late yesterday she bowed her bobbed hair before the gilded image in the joss house here; sniffed the fragrant incense from a dozen sacred candles and gazed at the smoke drifting upward from a hundred golden prayer papers burning in the joss house furnaces.

The ceremony, by the Buddhist rites, made her the wife of Carlos Neuse, noted San Francisco architect. Later there was a ceremony according to more modern customs.

"We don't care anything about marriage," the bride announced. "But marriage is a law in this country and to be happy we must abide by the law."

Orange Couple Married Here At Home of the Rev. P. F. Schrock

Yesterday morning at the parsonage of the First Congregational church an Orange couple plighted their troth, with only two of their very best friends in attendance.

The newlyweds are Mr. and Mrs. Robert L. Shaw. Mrs. Shaw was before her marriage yesterday, Miss Jane Wells, daughter of Mr. and Mrs. Alex Wells, 1102 East Almond avenue, Orange. The groom is the son of Mrs. R. M. Shaw, West Chapman avenue, Orange.

The Rev. P. F. Schrock performed the ceremony and Miss Florence Barnes and Mr. Walter Stricker, of Orange, witnessed the quiet little service, accompanying the happy young couple to Catalina island, where they are spending a week's honeymoon.

Mr. Shaw is employed as a machinist at Brite. Mrs. Shaw was formerly employed in the McPherson packing house at Orange.

Past Noble Grands of Torosa-Rebekah To Meet

The members of the Past Noble Grands' association of the Torosa-Rebekah lodge 247, will hold their next regular meeting at the home of Mrs. Maude Swarthout, 111 French street, tomorrow afternoon at 2 o'clock. Every member is urged to attend.

Folks From Wichita To Picnic at Long Beach

All former residents of Wichita, Kan., and tourists from that city are going to hold a basket picnic at Bixby park, Long Beach, at noon, Saturday, and the committee in charge has made arrangements for a large crowd and extend a cordial invitation to all Wichita folks to be there.

Col. Frank H. True will preside at the Wisconsin picnic to be held at Sycamore Grove park, in Los Angeles, Saturday, August 27, when "badgers" big and "badgers" little will gather to do homage to their old home state.

If the attendance this year is anything like the one last year, the crowd will break all records of state reunions. County registers will be provided so that every one may find his old neighbors, even if as many as 10,000 are present.

Everyone is asked to bring a well-filled lunch basket. "Every badger bring a badger," is the slogan of the committee.

Social Calendar

Exhibit—Laguna Beach, West Coast Arts, at Tanberg studios.
August 17—Peace Pipe Pageant, at Laguna Beach, 8 p. m.
August 17—Meeting, Foreign Missionary society, First Methodist church, 2:30 p. m.

August 18—Meeting, Past Noble Grands' association, Torosa-Rebekah lodge 247, at home of Mrs. Maude Swarthout, 111 French street, 2 p. m.
August 18-21—Conference, Southern Methodist Epworth League, at Spurgeon Memorial church.
August 18—Meeting, Emma Sansom chapter, U. D. C., at Birch park, 2:30 p. m.
August 19—Picnic supper, Berean class of First Presbyterian church, Balboa, 7 p. m.
August 20—Picnic, Orange County Missouri society, at county park, all day.
August 20—Picnic, Wichita, Kansas, reunion, at Bixby park, Long Beach, noon.
August 27—Picnic, Wisconsin state reunion, at Sycamore Grove, Los Angeles, all day.

CARAVAN OF AUTOS ON WAY TO IDAHO

CHICAGO, Aug. 17.—Three large army trucks, twenty-five automobiles of various vintage and innumerable trailers, arrived here on their way from Brooklyn to Buhl, Idaho.

Scores of men and women in khaki, and children of all ages spent the night here, and departed today for the west, where each of the thirty families comprising the party has forty acres of alfalfa land awaiting them.

Legion Auxiliary To Send Three Delegates To State Convention

At an executive meeting of the Women's auxiliary to the American Legion, held yesterday afternoon, it was decided to send three delegates to the state convention to be held at Yosemite on August 22, 23, 24 and 25. The local association will be represented by Mrs. Julia Saunby, president of the local auxiliary; Mrs. Harold Nelson, secretary, and Miss Julia Magill. Mrs. Mary Crissman is also going to make the trip but not as a delegate from Santa Ana, but as a state executive, having been elected state sergeant-at-arms at the last state election.

Mrs. Nelson and Miss Magill are planning to stay two or three days after the convention adjourns, in order to see Yosemite through the eyes of a sightseer and not as a convention delegate. The others expect to return on Friday, August 26.

UP-STATE NEWS

VISALIA—Dr. P. A. Bonquet, Tulare county plant pathologist, has asked supervisors for \$2000 to carry on a special study of the June crop. Dr. Bonquet proposes to use special sprays to test theories designed to prevent June drop. The supervisors are said to desire an expression from the growers before deciding on the expenditure, being said to favor the project if the growers so desire.

FRESNO—There has been a good export demand for dried peaches during the past few weeks, according to J. F. Niswander, general manager of the Peach Growers' association, who stated that there were indications that the 5000-ton holdover crop on hand sixty days ago would be entirely cleaned up by the end of the month.

SACRAMENTO—Some of the best choral societies in the state will participate in the community singing contests which have been planned as a feature of the state fair to be held here September 3 to 11. Mrs. Fred H. Garvey of Galt, who has charge of the contests, announces that among the entries received to date are the Southern Pacific Glee club of Sacramento and the Cornish Miners club of Grass Valley. Mrs. Harvey is being assisted by members of various clubs throughout the state.

SAN FRANCISCO—Mexicans and Americans were intermingled in the throng which assembled before the steps of the city hall to witness the formal ceremony which Mayor James Rolph Jr., as the official representative of the city of San Francisco, an honorary member of the Cruz Azul Mexicans. It was an impressive scene, with an honor guard of twenty-five of the prettiest senoritas from the city's Spanish colony costumed in the official uniform of white and blue adopted by the Cruz Azul, accompanying Consul General Eduardo Ruiz of Mexico and Senora Eulalia Gillespie to make the formal presentation of the membership diploma to the city's executive.

OAKDALE—The Oakdale Irrigation board hopes to place before the voters at an early date a proposal to vote bonds for enlarging the canals and laterals of the district. William Minney, member of a committee of land owners east of town, suggested that a bond issue be voted in order to make necessary enlargements, particularly of the area under the Clavey Syphon, and the directors indicated that they were willing to submit the question to the voters. Minney suggested \$200,000 was necessary for this purpose, but Director Moulton stated that the amount required would more likely be half a million.

EQUAL SUFFRAGE IN URUGUAY PROPOSED

MONTEVIDEO, Aug. 17.—President Bruh has sent the Uruguayan Congress a bill providing suffrage for women and all other legal rights held by men.

The project has met with the approval of influential groups in Congress and it seems to be assured of passage. The passage of the bill will give Uruguay the distinction of being the first South American nation to grant women equal rights.

S. O. S. Card Club Members To Be Guests of Mmes. Crookshank at Big Bear

Among the enjoyable events scheduled for this coming weekend is the cozy house party being planned by Mrs. C. F. and Mrs. A. J. Crookshank at their cabins on the shores of Big Bear lake. Their guests will be members of the S. O. S. Card club of this city, of which they are also members.

Several of their guests are planning to make the trip Friday evening and the remainder early Saturday morning. The following matrons are planning to accept the kind hospitality of the charming hostesses: Mmes. J. E. Gowen, J. E. Paul, A. B. Gardner, E. E. Keech, Roy Hall, C. A. Vance and C. E. Lamme.

DECLARES GENERAL SALES TAX BEATEN

A copy of what H. C. McKenzie, taxation authority for the American Farm Bureau Federation, has to say concerning congress and tax legislation, has been received at the Farm Bureau office here. The statement follows:

"Little by little the tax situation is clearing up. The general sales or turnover tax is definitely beaten. When I appeared before the Ways and Means committee of the House on July 26, Chairman Dornley said: 'You need not consume any time arguing against a sales tax—there is no one on the committee in favor of such a tax.'"

"From what I was able to gather before my appearance, what they proposed to do was to repeal the excess profits tax and reduce the higher surtax brackets so that the maximum tax on individuals would not exceed 40 per cent—this would mean the loss of \$600,000,000. The chief benefit from this action would be to enable wealthy men to keep the securities of high earning power which they still hold, and which are taxable instead of selling them and buying tax-free securities. The only definite proposal for making up any part of the loss in revenue was to increase the flat tax on corporations from 10 to 15 per cent; this would make up only a part of the loss. The encouraging thing about the situation as it stood when the hearings were opened was that apparently the effort to shift the burden of taxation from income to consumption had definitely failed. The hearings still further unsettled the program.

"The Farm Bureau's argument before the Ways and Means committee and before the Agricultural Joint committee that there was no justice in relieving corporations with large earnings of their excess profits tax, nor in relieving wealthy individuals of the higher surtaxes, nor in keeping the transportation tax, which affects all the people and which is doing more than any other one to retard the return of prosperity, seems to have borne fruit, as it was reported that there were more than one hundred Republicans who refused to go along any further in this program.

"It is doubtful whether the government can afford to reduce any of the taxes, but when it can it should begin with the taxes that affect all the people, and not with those that will only relieve the wealthy and the most prosperous corporations. The Republican leaders are going to appeal to the president, as the leader of the party, to force the recalcitrant members into line, as it does not seem possible to carry out the program otherwise.

"It is the duty of the agricultural population to convince the president that they look to him to see that when taxes can be reduced the beginning should be made with those tax reductions that will do the greatest good to the greatest number. The effort to convince congress and the people that 'all our domestic taxes are eventually passed on to the ultimate consumer' has stumbled over the \$16,000,000,000 worth of tax-free securities and the eagerness of the corporations for the repeal of the excess profits tax. The truth is becoming apparent to the people generally. If the people will let their congressmen know how they feel, the surtaxes will not be lowered and the excess profits tax will not be repealed."

TRANSPORT BRINGS BODIES TO MANILA

MANILA, Aug. 17.—The bodies of thirteen American soldiers who died in service in Siberia, here arrived here aboard the army transport Merritt. Some of the bodies it was said will be sent to the United States, while others will be buried here.

Veterans Daughters' and Sons' Picnic Attracts A Large Crowd

The count of noses at the annual picnic supper of the Sons and Daughters of Veterans, held last evening at the Orange county park, accounted for 142 Veterans Daughters and sons and members of their families.

The Rev. F. T. Porter, patriotic instructor of the Sons of Veterans, gave one of his splendid after-dinner talks, and the remainder of the evening was spent visiting. It is needless to describe the menu, for, of course, it was super-fine.

Pleasant Vacation Ends

Mrs. Etta D. Turner, Misses Nell Turner, Arlie Cravath and Eleanor Turner and Mrs. Olive Lopez returned yesterday evening from their automobile trip north.

They were absent sixteen days and during the many miles traversed in the Mitchell machine, only three punctures occurred to mar the joys of traveling. Miss Nell Turner was at the wheel, and although having had little experience in mountain driving, manipulated the wheel like a veteran.

Mrs. Turner and Miss Nell Turner attended the four days' session of the National Chiropractic association in San Francisco. They were guests of relatives.

Mrs. Lopez and Miss Cravath visited three days in Sacramento with the family of G. C. Hamilton, former residents here, and the remainder of the time were guests of Mrs. J. F. Hunkins, formerly Miss Irene Robinson, at Berkeley.

Personal

Miss Beulah Covell, 1515 Spurgeon street, is spending a week with her aunt and uncle, Mr. and Mrs. L. G. Covell, at their home in San Luis Obispo.

Mr. and Mrs. D. Hamilton and son, Clayton Jr., 509 East Pine street, returned last evening from a delightful motor trip north, covering two weeks. They were accompanied by Mr. and Mrs. C. A. Nis-son, of Tustin, and their trip included Santa Barbara, Santa Cruz, San Jose and San Francisco. The young sons of Mr. and Mrs. Nis-son stayed with their grandparents. Mr. and Mrs. M. Nis-son, 2500 North Main street, during their absence.

Mr. and Mrs. Glen Breeding, of this city, and Mr. and Mrs. Leo Fal-ler, of Fullerton, spent a most delightful week-end with Mr. and Mrs. John Strassberger of this city, in their cozy cabin at Forest Home.

Will Elliott, accompanied by his son, Martin, of the Meyer apartments, returned Tuesday after several days spent at Big Bear, where Mr. Elliott will erect a commodious cottage.

Miss Myrta Wright has returned from Sanborn, Iowa, and is stopping temporarily at 126 West Seventeenth street.

E. J. Eaton left Monday over the Santa Ana for points in Iowa and Illinois, for a visit with his brother and other relatives.

Mr. and Mrs. Fred Mott, of East Twentieth street, and Mr. and Mrs. A. G. Phelps, of Orange, are spending two weeks in the Santa Cruz mountains. They will also visit with friends in San Luis Obispo and San Francisco.

Mr. and Mrs. W. M. Crane of 602 Cypress avenue, are at Camp Baldy for a week's outing. They are accompanied by their son and daughter, Reid and Louise.

Mr. and Mrs. Asa Vandermaast, who have been visiting and traveling in the middle west are expected home today or tomorrow.

Mr. I. M. Yost of Denver, is visiting in this city at the homes of his son and grandson, H. E. Yost and Howard Yost.

Mayor and Mrs. John G. Mitchell and daughter, Miss Clarice Mitchell, were honor guests at a beach dinner given recently at Laguna by Mrs. E. A. Leahy.

Mrs. Neva Sutton and Mrs. Bertha R. Bruce have returned from a pleasant vacation trip to Laguna, Balboa and the neighboring beaches.

Dr. and Mrs. Ralph Lusby and little son, Billy, arrived yesterday from San Fernando for a visit with Mr. and Mrs. D. M. Loveridge of the New Rossmore hotel. Mrs. Lusby and Mrs. Loveridge are sisters.

TO AID EXPORTERS.

WASHINGTON, Aug. 17.—The war finance corporation announced today that it has agreed to extend a loan of \$140,000 to exporters to assist in financing the exportation of cotton to Belgium.

You can buy Southern Counties Gas 8% Preferred Stock on \$10 installments.

THEATERS

The Apollo Trio, headlining the Melkjohn and Dunn vaudeville road show at the Yost theater, tonight again presents an act entirely different from the usual run of vaudeville attractions. They feature reproductions of the celebrated Roman and Grecian masterpieces in bronze. Last night's audience gave this act a very cordial reception.

Al Rippon, celebrated ventriloquist-comedian with his character of "Jiggs" of cartoon fame, had a lot of fun last night. He had the house in an uproar continually.

Bobby and Earle—a clever team, amused everybody with their clean travesty, "Oh Doctor."

Estelle DeShon, musical comedy star, gave several vocal selections that brought forth continued applause.

Dexter and Phillips, "Just a Couple of Kids" have a cute little dancing act.

BIG STILL FOUND ON OAKLAND RANCH

SAN FRANCISCO, Aug. 17.—Federal authorities announced that a raid on a ranch east of the Piedmont district of Oakland, had netted a fully equipped distillery, Manual Costa, a ranch hand, was arrested and a large quantity of liquor was seized.

Property, confiscated, officers said, included two thirty-five-gallon stills and more than 100 gallons of brandy.

VETERAN TELLS HIS EXPERIENCE

"My stomach is in better condition and I have a heartier appetite and better digestion than I have had since I laid down my musket at the close of the civil war," was the remarkable statement made by W. L. Baxter, 814 East 31st St., Los Angeles, Cal.

"I am seventy-seven years old and up till the time I started on Tanlac I felt my age; but I seem to have taken a new lease on life and now feel twenty years younger. For more than fifty years had chronic indigestion and had to be careful of what I ate. Sometimes, in spite of my utmost care, I would have great distress after eating.

"I was about ready to give up the fight when I decided to try Tanlac as a last chance. There was something about it that gave me confidence, although I saw no decided improvement, even after I had taken several bottles. I knew fifty years' trouble could not be overcome in a night, so to speak, and I was determined to give Tanlac a fair trial and kept on taking it.

"Tanlac has made me feel like a new man. Why, I weigh ten pounds more than I have in years; not only that, but I feel fine all the time. My friends call me the Tanlac Parson because, they say, I preach such a good sermon about it. If anybody doubts what Tanlac will do let them come to see me and I'll convince them mighty quick."

Tanlac is sold in Santa Ana by the Rowley Drug Co.

EPWORTHANS OF
S. METHODISTS
MEET HERE

Santa Ana is to be the scene of
one of the important annual events
of the First Methodist Episcopal
church, South, when representatives
from all sections of Arizona and
southern California are expected to
gather here for the yearly conference
of the Epworth League, Los Angeles
branch, August 18 to 21, inclusive.

The program arranged for the
event promises many interesting
speakers, among them the Rev. J. J.
Mickle, Jr., and Professor Garfield
Evans of Nashville, Tenn., both of
whom are representatives of the gen-
eral Epworth League board.

Opens Tomorrow
The conference will open tomor-
row afternoon at 1 o'clock with de-
votional services and a welcome ex-
tended by the members of the Sur-
geon Memorial church, to their
guests. The first afternoon will be
devoted to organization with special
emphasis laid on the mission work,
both home and foreign, which will
be directed by Professor Evans and
the Rev. Mr. Mickle.

Bishop H. M. DuBois, who was to
have delivered the opening address
at 3 o'clock, was unexpectedly called
to the northern part of the state, but
his place on the program will be
filled by the Rev. "Bob" Shuler, pas-
tor of Trinity M. E. church, South,
Los Angeles, and a very great favor-
ite with his audiences everywhere.

The Thursday evening session will
open with a short song service after
which the Rev. Mr. Shuler will speak
on "Mud in the Hands of Christ."

The Los Angeles pastor has the
great faculty of holding his audience
tensely waiting for every word that
falls from his lips, and since his
charm as a speaker is ably abetted
by his record as a fighter in all
worthy causes, a large crowd is ex-
pected to be present to hear the ad-
dress.

Friday Program
The program for Friday will open
at 9 o'clock in the morning and will
be devoted almost exclusively to mis-
sion work with addresses by those
prominent in such work. Among
these talks will be one by Miss Mar-
garet Lacy of the Mexican Mission
in Los Angeles which is supported
by the church.

Friday night, a pageant has been
arranged to precede a stereopticon
lecture by the Rev. W. R. Thornton,
who has chosen for his subject, "The
Centenary Making Good."

The pageant, "Darkness and
Light," will be along missionary
lines and those taking part in it,
with the characters they portray will
be announced later.

The Saturday session of Bible
study will be directed by the Rev.
C. R. Gray, presiding elder, Los An-
geles district, while the evening has
been set apart for a social time when
the visitors will be entertained at
Laguna with a beach supper by the
members of the local church.

Sunday, ending the series of
meetings, will be marked by a morn-
ing address by the Rev. J. J. Mickle,
Jr., while the afternoon session will
have an address by Professor Evans
after which the consecration service
will be held.

In the evening all will gather at
Birch park for the union services
where Rev. D. L. Cole of Los Angeles
will speak.

ORANGE TO FORM
COMMERCE BODY
ORANGE, Aug. 17.—Indications
today pointed to 100 or more pro-
gressive citizens of Orange being
present at the meeting called in that
city for tonight for the organization
of a Chamber of Commerce. The
meeting will be at the Den O'Sweets
at 6 o'clock, with a dinner preced-
ing the business session.

The dinner and meeting is a pub-
lic one and citizens interested in
the organization of the boost body
are urged to be present.

It is expected the Chamber will
be formally launched tonight, with
the election of a board of directors
and adoption of a constitution.

It is understood that with the in-
stitution of the Chamber of Com-
merce the Merchants and Manufac-
turers association will disband. The
latter has a membership of approxi-
mately 100 and this will form a
nucleus around which a larger mem-
bership and more effective organi-
zation will be built.

MOTOR SPEEDERS ARE
FINED AT MODESTO
MODESTO, Aug. 17.—Thirty-five
motor-vehicle violators out of sev-
enty arrested last Wednesday by
Stanislaus county's motor officers ap-
peared before Judge W. H. Rice and
paid fines ranging from \$1 to \$50.

The largest fine paid was that of
Bert Jennings, son of former Judge
Jennings, who was fined for speeding
over forty-five miles an hour.

FORD TO PAVE ON
EAST SEVENTEENTH

The board of supervisors has
awarded B. R. Ford, Santa Ana, the
contract for paving East Seven-
teenth street between Newport road
and Prospect avenue.

Ford's bid, \$13,285.50, was the low-
est received by the board yesterday
afternoon. Other bids were Wells
and Bressler, \$14,451.07; George R.
Curtis, \$15,011.64; Steele Finley,
\$19,224.05. Finley bid on asphalt
paving, the others on concrete.

This strip of paving will connect
two paved roads. The distance to be
covered in the contract is 5700 feet.
The pavement is to be sixteen feet
in width and five inches in thick-
ness. Four or five trees will have to
be removed by the contractor.

GIVES OUTLINE
OF KIWANIS
ENDEAVORS

With about fifty members on its
roster, the Fullerton Kiwanis club
yesterday held its second luncheon
meeting at Odd Fellows' hall in that
city. A few members of the Santa
Ana club were present and Freeman
E. Bloodgood, of Santa Ana, district
trustee, delivered the address of the
day.

It is expected that formal organi-
zation will be made at next week's
meeting of the club.

"Kiwanis means all that the con-
structive imagination of carefully
chosen men enables them to build,"
said Bloodgood in his address. "Ac-
complishment will be determined by
our attitude and viewpoint."

"Kiwanis is the group formation
for going forward in a unique man-
ner toward better physical, mental
and moral development. While for-
mal organizations bound by ritual-
istic codes are struggling with the
letter that killeth, Kiwanis, original,
plastic, encouraging, initiative, gath-
ers about her festive board at high
noon, where men unbend from stern
thoughts and have their recrea-
tion, does things, quickened and
inspired by the spirit that maketh
alive."

"Where the law of competition ob-
tains, Kiwanis inaugurates the prin-
ciple of co-operation, dethrones the
ethics of the jungle and enthrones
the ethics of the golden rule."

"Kiwanis opens the doors of the
soul skyward and believes in ten
acres of sky for every acre of land.
Kiwanis optimism is not merely po-
tential but rather kinetic optimism.
It is optimism in action."

"The home nourishes civic right-
eousness, the school teaches it, the
pulpit preaches it, the lodge pledges
it and Kiwanis builds it."

"Kiwanis is the toastmaster presid-
ing in the banquet hall of close-up
fellowship."

PAULARINO

PAULARINO, Aug. 17.—The Thim-
ble club met with Mrs. Grafton Wed-
nesday afternoon. Ice cream and
two kinds of cake were served.
Those present were:

Mrs. Chilcoat, Mrs. Jamison, Mrs.
Hughes, Mrs. Flint, Mrs. Fairchild,
Mrs. Babb, Mrs. Otto, Mrs. Alex
Jamison, Mrs. White, the Misses
Hazel Flint, Rachel Babb, Esther
Otto, Edna Chilcoat and Thelma and
Margaret Jamison.

Their next meeting will be held
with Mrs. Otto.

Mr. and Mrs. Grafton, May T. and
Thomas were callers at the Flint
home Monday evening.

Mrs. Jones was a business caller
in Long Beach Saturday.

Mrs. Flint and children visited in
Orange Tuesday at the Bierbower
home.

SHRINERS CLUB
REGARDED AS
CERTAINTY

With two petitions bearing the
names of seventy-eight Shriners in
the hands today of City Marshal Jer-
nigan and five others out, Jernigan
today announced that the organiza-
tion of a Shriner's Social club here
was assured. It was expected that a
date for the first meeting would be
selected either late this afternoon or
tomorrow. Jernigan stated that he
thought the meeting would be called
for some time next week.

Seven petitions for organization of
the social club were placed in cir-
culation a few days ago. F. G. Plin-
kerton has turned his petition into Jer-
nigan and Jernigan has his own in
hand. The two have seventy-eight
names.

Other petitions are being circu-
lated by F. C. Krause, Fullerton;
William Holt, Orange; J. A. Claves,
Anaheim; Charles D. Brann, Tustin,
and Joseph P. Smith, Santa Ana.

Initiation fee has been placed at
\$1 and dues of \$1 a year have been
tentatively agreed to, although the
amount may be changed when the
charter members come together for
organization.

For the present it is proposed to
hold meetings at the call of the pres-
ident of the club, with possibility of
stated meeting dates to be decided
on at a later date.

GERMAN SUGAR MEN
ARE FORMING TRUST

BERLIN, Aug. 17.—Fearing the
example of the American fall in the
prices of sugar, German refineries
are endeavoring to form a trust to
maintain prices.

The government announces that
the existing laws render it power-
less to prevent the formation of a
trust, the only possible retaliation
being the abandonment of importa-
tion restrictions.

JONES IS SCHEDULED
TO APPEAR IN COURT

W. E. Jones, of Balboa, is sched-
uled to come before Justice of the
Peace Cox this afternoon for a pre-
liminary hearing on a charge of
driving his automobile while intoxi-
cated. At the time of his arrest,
Jones put up \$100 bail for his
appearance.

The complaint against Jones was
sworn to on July 18, last, by Oscar
Bruskey. Bruskey's car was slightly
damaged in a collision with a ma-
chine driven by Jones. The accident
happened near Costa Mesa.

Importance and Superiority of
Chandler's Magneto Ignition

Chandler ignition is supplied by the Bosch High-Tension Magneto,
as it has been always. Most high-priced American cars and all foreign
cars are magneto equipped. The fastest racing records have been made by
magneto-equipped cars. Nearly all airplanes and motor-driven fire
apparatus and nearly 100 per cent of all farm tractors have magneto
equipment. The great majority of trucks are magneto equipped.

There is no question as to the marked superiority of magneto
ignition. We could make a considerable saving by the use of a distribu-
tor system, which is called upon to start the starter, blow the horn, light
the lights, charge the battery and furnish the ignition. The greater
efficiency of magneto ignition more than compensates for our added
expense.

The magneto gives the Chandler motor a hotter, fatter spark, ignit-
ing the gas quickly and completely, and its simplicity of wiring and
absolute dependability, independent of any other unit, makes it the ideal
ignition system.

CROWD HELD IN PAGEANT SPELL

COMPLETE FAITH IN GOD SHINES SUPREME

(By ELEANOR ELLIOTT)

Never has the intensely religious nature of the American Indian, and his simple, childlike faith in a Supreme Being been so exemplified as in the Peace Pipe Pageant now in progress at Laguna Beach.

Their belief in the Divinity and their abiding faith in Him as the Giver of all Gifts, is splendidly shown by the action of the pageant which proves that in the untutored mind of the primitive dweller in this great country, was the constant seeking for the ultimate good which we call God.

The triumph of the impulses of good over those of evil in the grand act when Ab, the warrior chieftain, huris his war bonnet into the dust and lifts on high the peace pipe, emblem of the peace and the good which is bestowed by the Great Father, is the dramatic climax to the pageant. From the visional prelude to the actual play, every action on the part of those participating, leads up to this climax. Everywhere is seen the simple faith which, at the decision of the tribal leader to devote his life to ways of peace, accepts unquestionably that decision, and does the war path and the savagery of bloodthirsty raids, to follow the simple calling of the husbandman. That the God which ruled the world in that day even as He rules it today smiled with love upon His children; was taught by the ample harvest which rewarded their efforts.

And as Ab and Wahwona, his faithful wife, helpless in her blindness, but ever trusting in the faith which rose superior to such an affliction trod their way down the shadows, the onlookers realize that theirs was the simple faith which triumphs over death.

Delight in the series of wonderful pictures presented on the natural stage, and in the sonorous beauty and dignity of the lines, is so great, that it is only in retrospect that the moral and religious aspect of the drama is so striking. That the whole theme is so in keeping with the religious belief of today, may be a factor in the slowness with which this realization reaches the spectators, for if the rites were rites of paganism and devil worship, while the interest might be as intense, there would be lacking that feeling of custom and assurance in the ultimate good.

But watching Ab and Wahwona in their peaceful old age, enjoying the fruits of their service to their Maker, and then trustingly going down the Way of the Shadows, one leaves with a feeling of holiness and the complete faith that, primitive as was their religion, nevertheless it was, according to their lights, the true one, and the God that ruled the children of the tribe, was the same God that still rules the universe.

CHANTING CHORUSES ARE DIRECTED WITH WAVING FLASHLIGHT

The directing of the chanting choruses at the fear of the stage which was accomplished by means of a flashlight, aroused much interest among those who like to peep behind the scenes. The actions of the director were almost hidden from the audience, but there were a few who watched for the waving flashlight with keen interest.

The belated arrival of Dr. George Wharton James caused his appearance in the invocation at the first performance, to be entirely without rehearsal. At no point did the religious significance of the pageant have fuller stress than in this beautiful invocation to the Giver of Light and Love.

An unusual effect is achieved by the curtain which shuts off the view of the stage from the audience. This curtain is composed of long sweeping branches of the eucalyptus tree and is so arranged that instead of being drawn to one side it is dropped into the orchestra pit when the action is ready to begin. At one of the scenes, the lights behind the curtain are turned on and the burning campfire is seen through the leafy interstices. The effect is unusually weird and beautiful.

The splendid management and foresight of F. P. MacPherson has made possible the handling of the different choruses and crowds with the minimum of effort. At the extreme rear and behind the screening branches that cloak the dressing rooms, are built separate compartments where each group remains awaiting the cue. The groups come in the order of their appearance so that the return of one group to its empty compartment is the signal for the next to leave.

The spirited acting of the tribesmen of the Peace Dance and the Powwow of the Peace makers delighted the audience. F. W. Cuprien with his tiny drum led the dance and in the evolutions around the campfire was the embodiment of a warrior in the throes of emotional excitement.

SAYS ITALY NOW IS READY TO DISARM

SEATTLE, Aug. 17.—Gen. Pietro Badoglio, chief of staff of the Italian army, arrived here on his tour of the country.

"Italy," he said, "is ready to disarm, now that her ancient enemy, Austria, has been destroyed. Personally, I would gladly lay aside my uniform, never to do it again."

FISHERMAN HOOKS BODY
LONG BEACH, Aug. 17.—Fishing off the Pine avenue pier here last night, William Richie hooked what he thought would be a record catch. Just before his line broke he caught sight of a human body. Today police recovered the body of Tony Todoroff, Bulgarian. Todoroff was drowned August 8 while bathing in the surf.

SECOND NIGHT'S CROWD GIVES APPROVAL

If all those Laguna Beach dwellers interested in the success of the pageant (and that means everybody in the American Capri) were pleased at the manner in which their presentation was received at the first performance, their satisfaction was far greater today at the response of last night's crowd.

For while a representative crowd gathered at the beautiful little natural amphitheater on Monday night, fully twice as many were present last night.

Nothing but praise is expressed for the performance, praise of which each individual performer receives a full share.

But chief among the many outstanding features, is the incidental music. The chorus work of the orchestra is not to be excelled, while as for the music itself, it is little less than wonderful.

The fact that it was composed by a Laguna resident is matter for congratulation, for R. Messinger, the cobler of the village, has written his dreams and his lifetime's experiences into the music. Trained in Germany, Messinger has played in symphony orchestras all over the European continent. In America he has been a soloist on the oboe and allied wood instruments in Walter Damrosch's New York symphony orchestra and in Sousa's band.

A glimpse at the personnel of the orchestra reveals the following: Miss Jessie Washburn, chairman of the music committee, is organist at Laguna chapel and proprietor of the Arts and Crafts of Laguna.

Mrs. Whipple, pianist in the pageant orchestra, is an amateur musician of considerable reputation, owner of the Laguna bindery for rare books, where she creates, in her own way, bindings of great beauty.

Miss Ronie Best, pianist in the orchestra, comes from Riverside, where she has given solo programs for the Tuesday Musical club and solo concert recitals at the Mission Inn. She also plays for her noted sister, Marie Best, a dancer.

Miss Florence Normanshaw, first violin, is an Australian by birth and has received a profound musical education in Germany and in London, England. She has been several times representative of the Music Teachers' association at their conventions, is well known for her work with community music in Los Angeles, where she has had a studio for the past five years, and has a notable collection of very valuable violins.

Mr. James Sanborn Murphy, singer of the "Invocation to the Sun God," is teacher of voice in Laguna Beach, where he prepares his pupils for concert and operatic work.

Mrs. L. A. Viersen, of Los Angeles, who sings the incidental solos, is secretary of the Music Teachers' association and has all her life been a professional musician, and

since her marriage semi-professional.

Mr. John Smallman, bass in the quartet, is director of the Oratorio society of Los Angeles and a musician with an all-California reputation.

Miss Eugenie Oliver, director of the Star chorus, is a teacher of music, resident of Laguna during the summer.

Miss Hope Ford, chanter, student at the Oberlin college conservatory of music, also student of Madame Spotte in Los Angeles.

Miss Nina Opdyke, chanter, amateur musician and teacher.

Karl Hansen, violinist, an amateur musician associated with McCohrey's orchestra in Los Angeles; Professionally an interior decorator.

E. Redel, violin, of Santa Ana, newly arrived from Sioux City, Iowa, is a professional musician, violin and saxophone.

Mr. J. Goodridge Gould, violin, amateur musician, a partner in the Grace Kay Swan studios of Laguna Beach, consulting decorator and connoisseur of art objects.

Miss Florence Daisy Foster, violin, student working toward the life of a professional musician.

Prof. F. H. Billings, cello, formerly professor of bacteriology at the University of Kansas; recently appointed professor of bacteriology at the University of Redlands; amateur musician; resident of Laguna.

J. W. Beach, cello, salesman at Chandler's Music house in Santa Ana; plays with the Santa Ana City orchestra.

Miss Harriet Seineke, cello, professional musician, with the Los Angeles Woman's Symphony orchestra.

Mr. Lyle Roberts, clarinet, professional musician of Santa Ana; formerly with the Yost Theater orchestra there.

Mr. Sam Garret, vass viol, professional musician of Santa Ana; formerly of the Scenic theater at Whittier.

Mr. Joseph Kleitsch, flute, amateur musician; artist and portrait painter of national reputation.

Mr. B. O. Baird, clarinet, professional musician of Santa Ana.

Miss Doris Messinger, drums; Miss Messinger is the ten-year-old daughter of the orchestra director and already accomplished in music.

NAB CHECK SUSPECT
SAN DIEGO, Aug. 17.—A man giving the name of Leonard C. Brown 22, of Los Angeles, was arrested here today, accused of passing worthless checks on a Los Angeles realty firm. He will be held for northern authorities.

SANTA ANA IS HOME OF MANY EX-TEXANS SAYS PICNIC REPORT

Santa Ana is expected to send the largest delegation of Texans to the annual picnic reunion of the five Gulf states to be held at Sycamore grove park, Los Angeles, Saturday, August 20.

Checking over last year's Gulf States picnic register it was found that more Texans apparently are living in Santa Ana than in any other town in Southern California outside of Los Angeles, according to county headquarters' report.

The Rev. R. P. (Fighting Bob) Shuler, Dr. C. C. Selesman, Colonel Frank H. True and Dr. H. S. Adair are included among the speakers for the reunion. H. J. Brubaker will lead the singing. Texas, Louisiana, Mississippi, Alabama and Florida will be represented by large delegations of former residents, it is said.

GIRL THROWN FROM HORSE WILL RECOVER

LA HABRA, Aug. 17.—Miss Mildred Bishop, of La Habra, who has been suffering from a concussion of the brain sustained Saturday afternoon when the horse she was riding fell, throwing her on some cobblestones in the street, is reported as out of danger, although in great pain while conscious. She is at her home and rests easily a good deal of the time in what seems to be a natural sleep.

Miss Bishop had been riding bareback, which fact probably saved her life, as otherwise she undoubtedly would have been dragged by the stirrup. She was riding with her sister, Miss Dorothy Bishop, west of town, and the horse was cantering along slowly when he fell. It is thought the horse shied at something on the road and lost his balance.

It was at first feared that the horse had fallen on its rider, but examination of her body showed that the only injury was to her head, just above her left eye, and on her mouth.

There have been several changes for the better, and a speedy recovery is looked for. She awakens for short periods, when she is able to talk normal and take some nourishment.

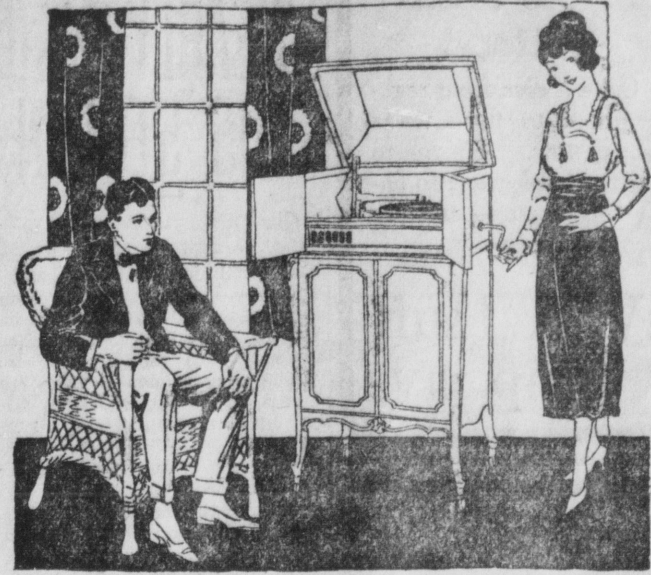

NORTHCLIFFE PLAYS GOLF IN HONOLULU

HONOLULU, Aug. 17.—Lord Northcliffe of England, in Honolulu on a world tour, played five holes of golf with Col. C. F. Iauke, Territorial Secretary, and H. H. Walker and George Angus, local business men. No score was kept of the game, played at the Oahu Country Club.

When a pitcher of leawater, the only drink available, was brought to the golfers, Northcliffe said laughingly: "This is the first glass of water I've seen in three months."

Lord Northcliffe sailed from Honolulu aboard the liner Makura for Australia last night.

REGISTER WANT ADS COST LITTLE---ACCOMPLISH MUCH

TOBACCO WORTH NEARLY \$4000 IS STOLEN

Cigarettes and tobacco valued at \$3,841.27, shipped from Los Angeles and consigned to Smart and Final and the Roehm-Sylvester Company, Santa Ana, have been stolen in transit, according to a report made to local authorities today.

The biggest part of the consignments was stolen from M. L. & H. car No. 32156, which arrived here on Southern Pacific train No. 142 last Sunday morning. One seal on this car was broken. Thomas Murphy, agent for the Southern Pacific, says that it was evidently broken in Los Angeles.

Shipments Short

Smart and Final checked 23 cases short and Roehm-Sylvester lost 22 cases from the car. The former concern ordered 15 cases of cigarettes and received one, and out of an order of 15 cases of tobacco received six. The Smart and Final loss is figured at \$1,016.35.

Roehm-Sylvester Company have reported losses in three consignments, the first two came over the Pacific Electric and the last over the Southern Pacific. Of twenty-five cases of tobacco and cigarettes shipped over the S. P. only three were received. In the first shipment via Pacific Electric, ten cases were stolen from a consignment of 25. And in the second a full consignment of ten cases were taken. In other words the company has lost 42 cases in the three shipments. This is a monetary loss of \$2,824.32.

After the Roehm-Sylvester company had sustained two losses in consignments shipped by the Pacific Electric it decided to try the Southern Pacific and again they lost, receiving but three cases out of a consignment of 25.

Detectives Baffled

Railroad detectives investigating the robberies are of the opinion that the thefts were committed in Los Angeles. They hint at collusion between draymen and railway company employees, but admit that they have no tangible clue to work on.

Both Smart and Final and the Roehm-Sylvester company have filed claims against the Pacific Electric and the Southern Pacific to recover their losses.

It is understood that extra precautions are to be taken in the handling of the next consignments to both of the Santa Ana firms.

Municipal authorities are working with the railroad detectives in an effort to round up the persons responsible for the thefts.

ORDERS ARE PLACED FOR SCHOOL DESKS

Orders were today placed with the Rucker-Fuller Desk company of Los Angeles, for 150 patent combination desks for use in the new grade school building now under construction on West Fourth street.

The action followed the decision made last night at the meeting of the school board for the purpose of opening the bids. There were three bids submitted, that of the Jones Book store, Los Angeles; C. F. Weber and Company and the one which received the contract.

While the desk selected was not the cheapest submitted, the members of the school board felt that they were receiving far greater value in it than in the cheaper ones. Samples from each company were submitted several weeks ago, and have been given every test.

In all respects, it is said, the desk chosen was worth the difference in price, and enough individual desks were ordered to provide thirty for each room. These are the latest in schoolroom equipment. The chair is mounted on crystal balls which permit it to be easily moved. Under the seat is the book drawer, and under the arm rest on the right hand side, is an inkwell which pushes out of the way when not in use. The table desk may be adjusted to any height and any angle preferred by the individual pupil.

Two sizes were ordered, the small and the medium, as the large size would not be needed in the grade schools.

In addition to the awarding of the contract, other business transacted by the board included the selection of Miss Amy Livingston, who received her master's degree from the University of California, to assist Ernest Crozier Phillips in the department of public speaking and dramatics.

Phillips will divide his time between the work of the department and that of directing the Community Players.

Other teachers elected were Miss Pearl Camblin, Santa Ana high school and Los Angeles normal graduate, and Miss Elsie Carter, also a Los Angeles normal school graduate, to positions in the grade schools.

The resignation of Dr. P. M. Magnusson, head of the history department of the high school was regretfully accepted, and steps will be taken at once to appoint a successor.

Members of the school board present at the meeting were: J. L. McBride, president; E. L. Andrews, secretary; J. Dick Wilson, Superintendent; J. A. Cranston was in attendance at the meetings.

140-ACRE AVOCADO ORCHARD PLANNED

That the San Joaquin Fruit company expects to plant 140 acres of avocados and that the food value of the avocado is so great that it should be given a prominent place on the menu of every home, are declarations made by C. E. Utt of Tustin, in his talk on "Popular Raising of the Avocado" given yesterday at the Yorba Linda Farm center picnic at Orange county park.

"At present the avocado is being sold at jewelry stores rather than at corner fruit stands, if cost is any means of judging," stated Utt in his plea for more growers of the fruit. "It must be made cheaper to bring it within the reach of the consumer," he stated.

Utt said the plans of the San Joaquin Fruit company, of which he is a member, plans to plant 140 acres near Irvine to the fruit. With the idea of having successive bearings, many different varieties will be planted, among them being the Sharpless, the Fuerte, the Lyon and the Dickinson, all ripening at different seasons.

At the close of Utt's talk, a short program of readings and music was given, followed by community singing on the part of the crowd of nearly 200 persons, who came from all over the county to join the Yorba Lindans in the picnic.

MANY SCHOOLS PLAN TO OPEN SEPT. 12TH

Most of the high schools and common schools of the county will begin their fall terms on September 12, according to information received at the office of the county school superintendent this morning.

Tustin high school will probably not open until the last of September, as it is planned there to make the high school term as short as possible under the state law, which requires a high school to have school for at least 160 days in a year.

Principal Hoeschel of the Garden Grove high school, at the county superintendent's office this morning, said his school will open September 12.

The greater part of the women's garment industry of New York is now housed in the largest combined manufacturing and exhibition buildings in the world—the Garment Center Capitol. Under this arrangement, through co-operative buying of materials, lower cost of floor space and other economics, the manufacturers claim the cost of women's apparel will be considerably reduced.

WANTED—175 adult women to work in cannery packing chilis.

TEACHERS MUST TAKE CENSUS IN OCTOBER

During the first week of October school teachers are to turn census takers.

Under the state law they, without extra pay, are to register children between the ages of three and eighteen. The registrations are to be made as a part of the attendance program of the state.

W. C. Roberts, supervisor of attendance in Orange county, has received word from the state supervisor of attendance that a pamphlet outlining fully the year's program and method of work will be issued by the state supervisor about the middle of September.

"Blanks are to be provided and will be distributed by me to the principal of every school in Orange county excepting Santa Ana. Santa Ana schools, being organized under a city of the fifth class, will make arrangements for the census here."

"The methods to be used to see that all children are registered has not been outlined. It probably will be outlined in the pamphlet that will come in September. A house-to-house canvass may not be necessary. The law makes it obligatory upon a parent to see that his child is registered. The parent may be required to appear at the schoolhouse."

"Compulsory attendance applies to children from eight to sixteen."

The cards that the teachers will make out will be turned over to the county supervisor of attendance to be used by him in checking up the attendance at each school.

EXPOSITION PLANS GIVEN APPROVAL

A Greater Santa Ana Exposition under the direction of H. Elmo Lebreque and a Mardi Gras by Santa Ana Post No. 131, American Legion, was given approval by the Chamber of Commerce directors at a meeting held this morning, with directors of the Merchants and Manufacturers association, members of the display and show committee of the chamber, and representatives of the post present.

C. S. Kendall, speaking for the display and show committee, declared that the merchants of the city were more favorable to holding the exposition than to a Parade of Products for this year. It was declared that 98 per cent of the merchants who exhibited at the exposition last April were keen for a reproduction of the display.

Those present at the conference this morning were Charles F. Smith, J. C. Metzgar, Edwin McFadden, L. G. Swales, Alex Brownridge, Joe Stout, Chamber of Commerce directors; Ray Chandler, C. A. Watkins, Lamont McFadden, Charles L. Davis, directors of the M. and M.; C. S. Kendall, Hugh J. Lowe, C. S. Kelley, Herbert N. Alkeman, Chamber of Commerce display and show committee; L. R. Crawford, Fay Wright, representing the post.

In response to a question, Lebreque stated that he believed the exposition he would stage this year would be of such a character as to prove pulling power to draw people to the city from all sections of the county and from points in Southern California.

October 8 has been tentatively set as the date for opening the exposition, which will continue for a week. Lebreque is having a new tent made at San Francisco. It is to be 110x300 feet and will be completed and delivered in Los Angeles by October 1. It is to be water proof and will be used for the first time in Santa Ana.

The post has not as yet developed its full program for the week, but plans on some special stunts in addition to having features in the tent. Lebreque promises an exceptional program of entertainment.

URGING COUNTY INSPECTOR FOR PROTECTION OF BABES

Bureau Men Say System Will Stop Sales of Impure Milk

DAIRYMEN FAVORING IT
Statements By Two State Officials Are Quoted In Interview

Mothers particularly should be interested in the proposed appointment of a county inspector of dairy products now under consideration by the county supervisors, in the opinion of H. E. Wahlberg, farm advisor, and his assistant, J. R. Waters. "Milk would be graded under such inspection," the farm bureau men said, "and in our opinion that is sufficient to warrant the appointment."

"Mothers of young babies and buyers in general who are wary of the purity of milk would be protected to the fullest extent, and would know that the milk they buy is of certified purity."

"The majority of cities have inspectors, and among California counties using dairy inspectors are Kern, Tulare, Stanislaus — in fact, practically the entire San Joaquin valley."

"The inspector is under the direct supervision of the state department of agriculture and the city and county health officers."

"Dr. J. S. Hay, dairy inspector of the state department of agriculture, and his deputy, Dr. A. B. Wilcox, of Los Angeles, appeared before the Orange county supervisors recently to present the matter of a permanent county inspector. The appointment would necessitate the passage of an ordinance authorizing the work to be performed and the salary to be paid."

"Dairy inspections in this county at present occur about once a year when the chief dairy inspector of the state bureau or his deputy makes the round."

"Tubercular cows were found in several Orange county dairies last week, Dr. Wilcox, who made the inspection, told us, and he said a number of the dairies were in an unsanitary condition."

"Possibly those tubercular cows have been furnishing milk to some Orange county folk for the last nine months as it is quite that long since the previous inspection was made."

"No such condition could exist under a county inspector, who has his certain territory to cover, and regular reports to make on the grading of milk, scoring of dairies, and the health condition of the milk producing cows. The percentage of butterfat in the tested milk, and the sanitary conditions of the dairy in which it is handled is entered upon his reports."

"Dairymen throughout the country are unanimously in favor of the county inspector's appointment. They realize it means the standardization of their product, and the protection of careful dairymen from any possible carelessness of others."

"There are many dairies in the county now that are just as careful now as they could be under inspection and milk from those dairies is safe for use. It is the careless and unsafe dairymen who needs watching."

The Dutch government will rebuild and present to France the French city of Lens. Before the war Lens had 24,000 inhabitants.

Taylor Is Canning Pears and Peaches For Eastern Trade

Pears and peaches are being handled at Taylor's cannery now, Fred Taylor said today. The pears are coming from the Sacramento River Valley and the peaches from Visalia, he said. Seven cars arrived last week, which Taylor said was somewhat of a drop from the pace set so far this season. He said:

"We have been working for the last three weeks with a full force of 100 women and 20 men. We had been shut down for four weeks, previously, between the finish of apricots and the beginning of peaches. Now we expect to run steady until October 1."

"Apricots, grapefruit, satsuma plums, and vegetable soup are among the items we have finished to date. Watermelons, pickles, dillstone peaches, and figs are yet to come."

"Though the fruit has not been coming in great quantities recently we find it to be of good quality, very fine in fact, though not exceptional."

This cannery ships most of its output to the East on orders received in advance of the canning season. It packs nothing but high class material.

REPORTS APRICOT OUTLOOK IS BETTER

"Most encouraging" is the good word of comment from the California Prune and Apricot Growers' association. The association, which has headquarters in San Jose, has members in Orange county.

In discussing the situation, Man to a more successful and profitable clean-up of the old apricots and an early market development on the new crop at excellent prices. "With the opening of the harvest season, the very light cannery purchase and consequent increase in dried production, the market on apricots slumped temporarily," said he. "Although our association policy is somewhat changed this year in that we are not opening with guaranteed prices, our firm stand through the period of slump enabled us to bring about recovery and have now a very sound market that we hope can be maintained for the sale of the season's production. Of course, all markets are very susceptible these days to a break on the least provocation, but with our association handling the bulk of the production and holding firmly through periods of slump and backed up by merchandising campaign plan, we are looking forward to a more successful and profitable season than anticipated after the depression of the past year."

"On prunes where we have held over a considerable portion of the past season's crop, the last couple of weeks our market has recovered and we are rapidly disposing of the balance on hand. Our packing houses will be busy for the next two months packing out this hold-over. The trade has also begun to take an interest in futures on the new prune crop. Prices are firming up and apparently a sound demand is developing. From our surveys we have report of an excellent consumer trade developed throughout the country and on over-stock on hand at any point."

LOS ANGELES WOMAN INJURED IN CHICAGO

CHICAGO, Aug. 17. — Mrs. Cora Morris, of Los Angeles, suffered a scalp wound, when an automobile in which she and Mrs. Thelma Tucker of Chicago, were riding, was struck by a street car. She was taken to a hospital. Mrs. Tucker was uninjured. Mrs. Morris is visiting at the Tucker home.

THINKS RHODES GRASS WORTH A TRIAL

Farm Advisor Gives Information About Alkali Soil Crop

That Rhodes grass can be grown successfully here and is a crop worth while trying on alkali lands, is declared by County Farm Advisor H. E. Wahlberg.

"Several calls have come to the local Farm Bureau office," says Wahlberg, "for information regarding some forage crop that can be grown on high alkaline soil."

"Rhodes grass is a perennial grass native of Southern Africa that has been very successfully grown on many of the abandoned areas of the South."

"Rhodes grass is a fine stemmed, very leafy plant grown to average height of three feet. The plant spreads by means of runners which may be from two to six feet or more long. These root at every node, establishing new plants which again send out upright shoots producing a dense pasture."

"Orange county climate conditions are thought to be very good for this grass. Through lack of drainage, the raising of the water table and in turn the rise of alkali in some sections the growing of alfalfa or fruit trees has been made impossible."

"Rhodes grass is not exacting as to type of soil as it can be grown on reclaimed peatland and lands of heavy adobe character containing much alkali."

"This grass makes a sweet tender hay liked by all classes of stock. On fairly good soils from five to eight tons per acre can be cut. Perhaps the best way to utilize Rhodes grass is to make two cuttings for hay and then pasture for the remainder of the season. This grass can be compared with alfalfa, but pound for pound it is very much less in its protein content and for dairy cows concentrates or alfalfa would have to be fed with it."

"Seed may be secured from any of the large seed companies of Los Angeles. Any further information regarding the planting or growing of Rhodes grass may be gotten from the County Farm Bureau office."

The crop is not suggested for soils that are not alkaline for they are worth more for other crops.

SOY BEAN MAKES HIGH-GRADE FEED HAY

WASHINGTON, Aug. 17. — The soy bean when cut at the right stage of growth and properly cured makes an excellent hay of high feeding value that is greatly relished by all farm animals, says the United States department of agriculture News Letter. As compared with hay from other leguminous crops, soy bean hay is equal or superior to any. The use of this hay as a source of protein, which can be produced on the farm to balance feeds for growing stock or for milk, should reduce the quantity of high-priced concentrated feeds which it is necessary to purchase.

SOUTH LEARNS HOW TO CULL POULTRY

NEW ORLEANS, Aug. 17. — Farmers and poultrymen of Louisiana who, unconsciously, have been supporting non-producing hens and worthless males have been learning important things in the culling demonstrations conducted by poultry specialists employed co-operatively by the college of agriculture and the United States department of agriculture.

The demonstrations began early in June, continued through July and will be effective August and September, in 15 parishes. The work includes instruction in housing, feeding, and caring for growing stock, given by farm and home demonstration agents. Poultry club children and women owning flocks will have special attention and help in culling out the "boarder" hens which produce nothing for what they eat.

CUTWORMS DESTROY SMALL GRAIN IN WEST

DENVER, Aug. 17. — The pale western cutworm is again present in destructive numbers in Montana and Colorado, according to reports to the bureau of entomology, United States department of agriculture. In Montana it is estimated that from 10 to 75 per cent of the small grain will be destroyed in the counties infested, and in Colorado thousands of acres are being plowed out and reseeded to a catch crop.

DENY RUMORS SARAH BERNHARDT IS ILL

PARIS, Aug. 17. — Sarah Bernhardt's health is "excellent," it was officially stated by her family today. Rumors had been circulated that the famous actress, now 77 years old, was in a serious condition due to the result of a cold on her lungs.

INFANTILE PARALYSIS FATAL TO THREE TOTS

DAVENPORT, Ia., Aug. 17. — City and county boards of health were planning measures today to fight another epidemic of infantile paralysis, following two deaths yesterday. Within the week three children have been victims of the disease.

Jerome Is Contributor To Washington Agricultural Report

W. C. Jerome, president of the San Joaquin Bean Growers' association, and member of the board of directors of the California Bean Growers' association today received from the U. S. Department of Agriculture at Washington a copy of the department's annual year book.

Jerome is a correspondent for the department of agriculture for this district and has contributed material for the book. It is replete with statistical information and data regarding farm products and live stock.

Considerable space is given to the bean industry and beet industry of Orange county. Most of the data on these subjects was furnished by Jerome, who is considered an authority on these crops.

The book is full of valuable information for farmers and stock men. It contains statistics from every part of the country with comparative tables, etc.

Several prominent bean growers have seen the book and pronounced it one of the best ever turned out by the agriculture department.

Copies may be obtained from the agricultural department at Washington, D. C.

FACTORY ADJUSTING FOR STOCK BEETS

Numerous reports containing exaggerations concerning the number of acres that this year were planted to mixed stock beets and sugar beets instead of sugar beets alone have been circulated, it was learned at the Holly Sugar company headquarters today. Reports that a large percentage of the acreage is "infested" with stock beets are untrue.

The fact that some of the seed received from Germany for this year's planting proved to be a mixture of stock beets and sugar beets was stated by the factory officials some months ago. The company at once took steps to protect the farmers from loss. The Holly factories have and are making adjustments satisfactory to the farmers. So far as possible the stock beets are being salvaged through contracts for pasturage to beef cattle. The loss falls on the factory, not on the farmers.

The acreage in stock beets is not stated in exact figures, for the reason that in some instances the stock beets are growing in the same field with the sugar beets. Any statements, however, say the factory men, that stock beets are anything more than a small per cent of the total acreage are without foundation.

The seed for this year's planting was not received in time for the factory to make planting tests. The seed for the coming year will be tested through germination before it is given to the farmers.

The factory will use every possible precaution against the use of any impure seed the coming year.

Last year the factory had no reason to believe that the seed was impure.

CLEAR WOOL BRINGS BEST MARKET RESULTS

MEMPHIS, Aug. 17. — That clear wool is worth more than burry wool was conclusively demonstrated in connection with the recent co-operative sale of some 91 sacks of wool by farmers in Humphreys county, Tenn., say marketing specialists of the bureau of markets and crop estimates, United States department of agriculture.

The wool was separated into six lots according to freedom from burrs. The lot with the fewest burrs brought 19 1/2 cents a pound at shipping point and the lot with the most burrs 9 cents.

A marketing specialist of the Tennessee agricultural college assisted by the county agricultural agent separated the wool in the presence of the farmers. The producers gained much information about different types of wool, approved methods of preparing the product for market and current market demands. The wool was sold to a Tennessee blanket manufacturer.

WEATHER REPORTS HELP FOOD PRODUCERS

CHICAGO, Aug. 17. — Through its reporting stations in all parts of the country the weather bureau of the United States department of agriculture advises crop growers of approaching storms and gives general weather and minimum temperature forecasts — all of which warnings have been of great value to farmers in the matter of crop production.

Special services cover 17 of the principal crop states, the regional center being at Chicago, Ill., and 188 principal reporting stations; 11 of the principal cotton states, with New Orleans, La., as the regional center, and 165 special reporting stations; rice and sugar growing sections of the south, with 6 special reporting stations; all or parts of 8 grazing states, with 67 special reporting stations. Special reporting stations are also maintained in the principal tobacco, potato, alfalfa seed, cranberry, citrus and deciduous fruit growing regions.

If you have \$10 to spare, put it into Southern Counties Gas Preferred Stock. It brings you 8% payable quarterly.

ROLL OPEN FOR RECEIVING NEW MEMBERS

Orange County Walnut Growers Can Handle 350 Tons

The Orange County Walnut Growers' association is ready to receive new members, according to C. G. White of Gowen and White, fruit packers. Application blanks may be secured either at the packing house or from W. B. Williams, cashier, First National bank.

Commenting on plans for the coming season, White said:

"Last season was the first year of this association and we considered that it was very successful. Everything was paid out in the fore part of February."

"Members of the association now have about 200 tons to run through the house. We would like to add 150 tons to this total, but no more. We would not crowd our equipment, though we feel we can handle up to 350 tons."

"Gowen and White did some independent packing last year, but do not expect to do so this year, during the walnut season. We have been packing oranges recently."

TO SELL STATE SCRIP AT PUBLIC AUCTION

SACRAMENTO, Aug. 17. — A public auction sale of state scrip will be held by Surveyor General W. S. Kingsbury, at the state capitol, Sacramento, Tuesday, September 6, 1921 at 10 a. m.

State scrip is the cheapest land scrip on the market today. Scrip can be purchased only by citizens of the United States who are residents of the State of California, and can be located on any vacant non-mineral government land in California.

Homestead and desert land entries can relinquish their entries through the surveyor general's office and acquire title to the land by the purchase of scrip, provided the land is not withdrawn by the federal government for public purposes prior to the date the land is scripped.

The applicant need not live on or improve the land. State scrip is not transferable. Scrip is sold in forty acre lots for cash, personal checks received, but no purchaser can buy more than 460 acres, and the surrender of the scrip is payment for an equal acreage of government land.

At the last auction sale of state scrip the price received averaged \$6.63 per acre.

All money received from the sale of scrip goes to the support of the public schools of the state.

For circular giving information concerning state scrip, address the State Surveyor General, Sacramento.

WATER-IN-HOME PROBLEM IS SOLVED

RALEIGH, N. C., Aug. 17. — The problem of having running water in the house, as well as on the farm, is solved by the use of the water pump everywhere are struggling to meet.

The county agent of Cabarrus County, N. C., employed by the United States department of agriculture and the state agricultural college, was able to persuade one of his demonstrators to dig out a basin on the side of a hill near his house and line it with cement instead of building a tower. The elevation was about 20 feet above the top of his house, which gave sufficient pressure.

The outlay for placing water in both his and his brother's house was \$400.

The basin holds about 2000 gallons and keeps the water at a more uniform temperature than would a tank in a tower, which would have cost twice as much.

Fishing Tackle — Liveys's.

FRAMERS PLOT WHILE FARMERS "CARRY ON"

RICH TOP DRESSING AIDS FADED LAWN

"Lawns that get a tired look late in summer," says the Farm Bureau, "can be stimulated and made fresh by a light top dressing, composed of 2 parts good loamy soil, one of well-rotted manure, finely comminuted, or any good compost in which soil predominates, with 1 1/2 pounds of sulphate of ammonia or nitrate of soda, for every 1000 square feet."

"The mixture should be applied evenly, and will result in quick stimulation and new green growth."

"A mixture with a good proportion of soil is strongly urged, especially when the chemicals are used, as the chemicals will burn the grass when used too liberally on the lawn. If the grass is watered after the fertilizer is applied water should be thoroughly and liberally applied."

Wahlberg Ready to Receive Orders for Purple Vetch Seed

A quantity of Purple Vetch seed for cover crop purposes will soon be available through the Farm Bureau office. Farm Advisor Wahlberg is negotiating with the Humboldt County Farm Bureau exchange to ship seed here to those in Orange county as may desire to demonstrate the growing of this crop in comparison with other crops for green manuring.

Parties desiring a supply of this seed should notify Farm Advisor Wahlberg. Forty pounds per acre is recommended. The price will be around 15 cents per pound f. o. b. Eureka.

A few small plots planted over Orange county last fall showed very heavy growth and very little aphid infestation. "It is apparently very desirable for our conditions," says Wahlberg.

MAKE NEW PLANS FOR FARM SCHOOL

BERKELEY, Aug. 17. — The work of the farm school of the University of California will be greatly strengthened this year by the addition of more highly specialized courses, according to a recent announcement of Thomas F. Hunt, dean of the college of agriculture.

Opportunities for specialization will be offered along four distinct lines, permitting a choice of animal husbandry, dairy manufactures, poultry husbandry or horticulture.

From one-third to one-half of each student's time will be given over to one of these branches. The rest of the student's time will be occupied either with allied subjects or with practical work in forging and carpentry. Opportunity will also be offered for the election of such subjects as botany, chemistry, English and economics.

"Under these plans a student will have at the end of one year's time an excellent understanding of one particular line of work in which he may be particularly interested," says Dean Hunt. "It is felt that this new departure in Farm School work will especially appeal to the young man who wishes to go back on the land as soon as possible."

It helps your city's growth, it supports your home utility, it brings you 8% Southern Counties Gas 8 per cent Cumulative Preferred Stock.

WAHLBERG READY TO RECEIVE ORDERS FOR PURPLE VETCH SEED

A quantity of Purple Vetch seed for cover crop purposes will soon be available through the Farm Bureau office. WALNUT SEASON TO OPEN THIS YEAR EARLIER TWO WEEKS

Various Reports Indicate Crop Is To Be of Fine Quality

WORK ON LOCAL PLANT

Santa Ana House To Handle 200 Tons More Than Last Year

Walnuts apparently will be ready for the packing houses fully two weeks earlier than usual this year. Reports from various districts confirm this belief.

Southern California's crop is expected to run between 16,000 and 18,000 tons. Official surveys as yet have not been reported by the association's headquarters, though it is understood that the orchards have been visited for the purpose of estimating the proportion of No. 2s, small size walnuts.

All reports agree that the crop will be of fine quality. The groves are being irrigated for the last time before the harvest in some districts, from where particularly optimistic reports are received. This last irrigation, they say, will pay them big dividends in increased poundage when the nuts are weighed at the packing house.

Harvesting will begin early in September.

Work is progressing on the remodeling of the packing house of the Santa Ana Walnut Growers' association, and according to recent reports the plant will be in first class condition when the season opens about September 15.

Ransom Reid, chairman of the house committee, at present is at San Diego, will return the end of the week. Reid has been keeping close tab on the work.

Pern S. Bishop is the contractor. The work is being done on a cost plus basis. Reid said recently. This for the reason, he said, that it is impossible to map out just what had to be done before the plant would be ready for operation, and therefore as the work progresses future moves are planned, he said.

Visitors to the plant view considerable extension work that is being done. New bins are being built. Belts and machines are being overhauled, and the packing house is being thoroughly remodeled.

The plant expects to handle 2600 tons of walnuts this year, which is greater by 200 tons than any previous year, according to reports.

SUNFLOWERS FOR USE AS SILAGE POPULAR

WASHINGTON, Aug. 17. — The use of sunflowers for silage has proved popular in certain of the northern great plains and intermountain states where it is not possible to produce a large tonnage of corn for silage purposes.

In some sections the silage made from sunflowers has been found to compare favorably in palatability and feeding value with silage made from corn. This is not always the case, however, as it appears that in certain irrigated districts in the northern great plains where the growth of sunflowers is rank and succulent, the resulting silage is often not very palatable.

Experiments reported from the Hunter Experiment Farm in Montana of the United States department of Agriculture show that while it is possible to produce from 25 to 30 tons of sunflowers per acre, it has been difficult to produce a silage that is as much relished by livestock as corn silage, which gives rather less than half as much tonnage per acre.

To The People of Santa Ana and Orange County, Greetings:

Mr. J. H. McDUFFIE, senior member of the McDuffie Realty Company has just returned from an extensive trip through the United States and Canada and is more convinced than ever that Orange County is the only place to live. He found that this opinion was wide-spread throughout the East and predicts that the exodus to Southern California this Fall will surpass all previous records.

If you are contemplating the purchase of real estate of any description, now is the logical time to buy, before the crowds begin to pour in from the East. If you have property to sell, list it now and be prepared to take advantage of the increased demand for real estate.

In addition to their work on the Chateau Thierry sub-division the McDuffie Realty Company has re-organized their City Property Department to take care of the increased activity along this line. This Department under the management of Mr. Lindsey and Mr. Strain is now in a position to give you the best of service. We have buyers waiting and can give you quick results on your listings. Come in and get acquainted.

McDUFFIE REALTY COMPANY,
315 North Main Street,
Santa Ana, California.

In Earlier Days

In former times, when the town butcher or farmer himself dressed and cured the meat for the community, he could not always tell how it would turn out.

His methods were crude; partly traditional, partly guesswork. His tests were few and inconclusive.

Meat packing of today, as carried on by Swift & Company, has changed all that. It is scientific. Nothing is left to chance; nothing taken for granted.

The most painstaking care and attention are given to every step. Processes are worked out on a large scale with minute exactness. Methods are continually revised and improved. Cleanliness is insisted upon. Drastic, incessant inspections are the order of the day.

Swift products are uniform, graded according to quality.

Take bacon, for instance.

Swift & Company set out years ago to make a delicious, savory bacon which should be uniformly excellent.

The result is Swift's Premium Bacon, always the same, always famously good. Today this bacon, wrapped, sealed and branded, has circled the world.

**SWIFT'S
PREMIUM**

Swift & Company's system of distribution carries it to places which the "town butcher" or the farmer could not reach.

Swift & Company, U. S. A.

Register's Sport News

RIVERS TO REFEREE FIGHTS AT ANAHEIM

With Joe Rivers, former contender for the lightweight boxing crown, as the third man in the ring, Steve Dalton of Vernon and Bert Tribby of Santa Barbara will meet in the main event Friday night at Anaheim. Rivers will be drawing card enough but with Dalton and Tribby on tap for four spasms, matchmaker Walter Abbey figures he will pack the arena at Sparke's ranch.

Boxing fans in these parts have been wondering just how good this fellow Tribby is since he treated them to a couple of quick knockouts. They will find out Friday unless Dalton takes things easy like he did against Johnny Cline last week.

Abbey has stepped up fast boys for the double semi-windup. Young Dudley of Anaheim who got a draw with Jack Sparr at Delhi last week will go up against Charlie Dundee of Chicago. Billy Conley of Anaheim is set for his match with Ben Smith of Los Angeles in the other affair.

The preliminary bout will find Eddie Miller of Los Angeles scrapping Earl Cody of San Bernardino with Kid Louie of Placentia and Kid Leo of Santa Ana opening up the evening's entertainment.

PIRATES AND PHILS SPLIT DOUBLE BILL

PHILADELPHIA, Aug. 17.—Philadelphia yesterday divided a double-header with Pittsburgh, winning the first game 6 to 5 and losing the second in the eleventh inning 8 to 6. A triple by Bigbee and a sacrifice by Robertson gave the Pirates the second game in the eleventh.

(First game)
Pittsburgh .. 5 10 1
Philadelphia .. 6 9 0
Pittsburgh—Cooper and Brotemmel; Philadelphia—G. Smith, Betts and Henline.

(Second game)
Pittsburgh .. 8 14 2
Philadelphia .. 6 19 1
Pittsburgh—Adams, Zinn and Schmidt; Philadelphia—Sedgwick, G. Smith and Peters.

DODGERS DOWN GIANTS.

NEW YORK, Aug. 17.—A spectacular ninth inning rally enabled Brooklyn to defeat New York yesterday 7 to 6. With one out Wilson tied the score for Brooklyn with a homer into the right field stands, scoring Grimes ahead of him. Johnson followed with a home run into the left field bleachers that won the game. Outfield errors aided the Giants to score most of their runs.

Brooklyn .. 7 12 4
New York .. 6 11 1
Brooklyn—Grimes and Miller; Krueger; New York—Nehf, Ryan and Snyder.

BRaves TRIM CUBS.

BOSTON, Aug. 17.—Boston drove Alexander out of the box in the sixth yesterday and defeated Chicago 8 to 6. In the first inning with two on bases Grimes hit the ball into the right field bleachers of the fly.

Chicago .. 6 13 2
Boston .. 8 14 1
Chicago—Alexander, Freeman, York and O'Farrell; Boston—McQuillan, Fillingim and O'Neill, Gowdy.

DETROIT WINS CLOSE FIGHT FROM BROWNS

ST. LOUIS, Aug. 17.—Detroit broke St. Louis' winning streak of six games straight yesterday when they pounced on Van Gilder in the first seven innings and won, 7 to 5. Sisler poled a home run in the eighth with two on bases, but Leonard tightened thereafter and checked the rally.

Detroit .. 7 11 1
St. Louis .. 5 9 1
Detroit—Leonard and Bassler; St. Louis—Van Gilder, Bayne, Kolp and Severeid.

PICTURE COURSE FOR COLUMBIA STUDENTS

NEW YORK, Aug. 17.—Columbia university students are going "on location" and will film a reel or two of snow stuff this winter as part of a new course in pictures, the first of the kind given in the United States. There will be studio work, as well as the mechanical end of the business, with the production of a photoplay written by one of the students.

The mysteries of the newest of the arts will be laid bare in the course. Those who desire to learn continuity writing and how to keep the action going fast and furious while the audience learns the captions by heart, will be led by the hand through the mazes of the what and why of the professional cinema world.

The creation of situations and crises will not be neglected. The logic of emotionally satisfactory endings will be explained. The principles of visual appeal, the hurrying curd pie, the glistening tears, the close-up, the fadeaway, the sure-fire tricks, the entire art of arousing and sustaining the spectator's interest will be turned inside out and back again for those taking the course.

COMMISSIONER FORBES IS NEARLY DROWNED

COTABATO, P. I., Aug. 17.—V. Cameron Forbes of the American mission to the Philippines, and members of his party, narrowly escaped drowning at Cadanbaran, Agusan province, while attempting to return from shore to the steamer Pollillo through the surf in a native boat.

The surf was running high and the entire party was washed overboard when the boat capsized. The party finally was washed ashore by large breakers and spent the night in wet clothes on the beach.

LOS ANGELES FINDS OAKLAND TEAM EASY

LOS ANGELES, Aug. 17.—Angel sluggers fell on the offerings of Pitchers Alten and Siebold of Oakland here yesterday for a total of sixteen safe hits and won the opening game of the series, 11 to 0. Crandall pitched well for the home team, allowing the visitors but eight hits.

Oakland—Alten, Siebold and Koeh-
Doerfles .. 11 16 0
Oakland—Alten, Siebold and Koeh-
ler; Los Angeles—Crandall and Stan-
age.

TIGERS BLANK SEALS.

SAN FRANCISCO, Aug. 17.—Ver-
non scored in the ninth inning and
won from San Francisco, 1 to 0, in
a game that was a pitchers' duel
between Faeth and Crumpler. Han-
nah, who made the lone run, reached
first on O'Connell's error, advanced
on singles by Zeider and Faeth, and
scored when Kelly fumbled a ball in
center. The Seals had several oppor-
tunities, but were unable to hit with
men on bases.

Vernon .. 1 6 0
San Francisco .. 0 5 3
Vernon—Faeth and Hannah; San
Francisco—Crumpler and Yelle.

BALTIMORE CINCHES CHAMPIONSHIP FLAG IN INTERNATIONAL

BALTIMORE, Md., Aug. 17.—It's
all over—even the shouting.
Since the middle of the season
Baltimore has held such a command-
ing lead in the international league
that the fans started their hurraing
early and now only await the post-
season clashes with the American
association, the New York Giants,
the Detroit Tigers and the Washing-
ton Senators.

Today there remains but one ob-
jective in the International league,
and that is the possession of second
place. Buffalo, Toronto and Roch-
ester have been scrapping over it
for the past two months and prom-
ise to keep up hostilities until Sep-
tember is on its last legs. No one is
going wild over the race.

BRITON TENNIS TEAM STAR MAY NOT PLAY

CHICAGO, Aug. 17.—Capt. S. M.
Jacob, of India's Davis cup tennis
team, may not be able to play in the
semi-finals against Japan. His right
knee has been bothering him and
physicians have been unable to get
it into normal condition. The match
starts tomorrow. The Japanese are
in fine shape for the test.

CUMPTON WINS OVER RUBIO IN SLUGFEST

LOS ANGELES, Aug. 17.—Young
Cumpton defeated Kid Rubio in the
first event at Vernon last night. The
fight was a slugfest, showing plenty
of action, and was generally a bet-
ter fight than the main event.
Jimmy Duffy, of Oakland, won a
decision over Gene Cline. Duffy let
Cline wear himself out for two
rounds and then tore in, having Cline
at his mercy during the rest of the
event.

Young Carmen defeated Young
Papke in the semi-windup. In the
other events, Conley defeated
Jack Brooks, Johnny Cline beat Mike
Doll, Fred Kramer and Mike O'Leary
drew, as did Ad Rubidoux and Eddie
Macy.

SWEENEY TAKES BRIDE

Kid Sweeney, clever boxer, who
has appeared in the ring here several
times, has joined the ranks of the
benedictines and is now spending his
honeymoon at San Juan Hot Springs,
Capistrano. Sweeney has notified
his manager, Johnnie Lopez, to get
him a match with Jack Martin or
any other boy on the coast at his
weight.

SUZANNE WANTS TO PLAY WINNER AGAIN

By HENRY L. FARRELL,
United Press Staff Correspondent.

FOREST HILLS, N. Y., Aug. 17.—
Suzanne Lenglen, the little tennis
marvel of France, sat in her apart-
ment here today with only her moth-
er to comfort and console her.

The American champion, Mrs.
Molla Bjoursted Mallory yesterday
not only defeated the queen of Eu-
ropean courts and the claimant of
the world's championship but forced
her to quit after losing the first
set, 6-2.

The American champion, despite
the manner in which her victory was
accomplished, deserves credit for
triumph. It was her day. The great-
est game of her life found her in
her greatest form and it is doubtful
if the little French girl could have
won if she had been in perfect con-
dition. She was suffering from a se-
vere cough.

Ms. Lenglen said today that she
doesn't know how she was able to go
through the first set yesterday.

"In the first game of the second
set my chest became heavy, my arms
weak and I could scarcely breathe.
My throat was choked and my head
was dizzy. I thought perhaps it
would pass away, but I felt faint and
could do nothing but retire," she
said.

"I was forced to use extra efforts
and when I exerted myself my wind
grew short and I started coughing."

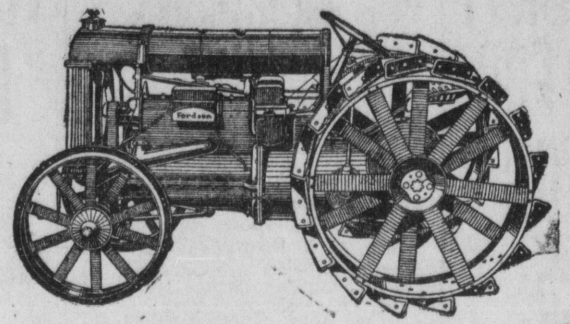

She said she was not attempting to
"alibi," that she was defeated by
first class tennis and that her con-
queror was a great player. She in-
tends to go on her exhibition tour
if she recovers in a week and she
expressed the desire to meet Mrs.
Mallory again.

Mrs. Mallory practically has
clinched the national championship
as she is now in her greatest form.

Francisco Villa, once Mexico's
noted bandit, has started dabbling in
oil. A company was recently or-
ganized to exploit some lands in the
Laguna region and Villa is said to
have invested \$200,000 in the project.

Camping Equipment—Livesey's.

Fordson

The Fordson saves from thirty to fifty per cent of the farmer's time.

The Fordson plows, harrows, drills as much ground in the same time as from four to six horses. (Many farmers say it does the work of eight horses.)

The Fordson does for the farmer just what machine power does for the manufacturer—it enables him to manufacture his product at less cost. And that is what the farmer wants to do; grow his crops more cheaply and make his margin of profit greater. And the Fordson will help him do it.

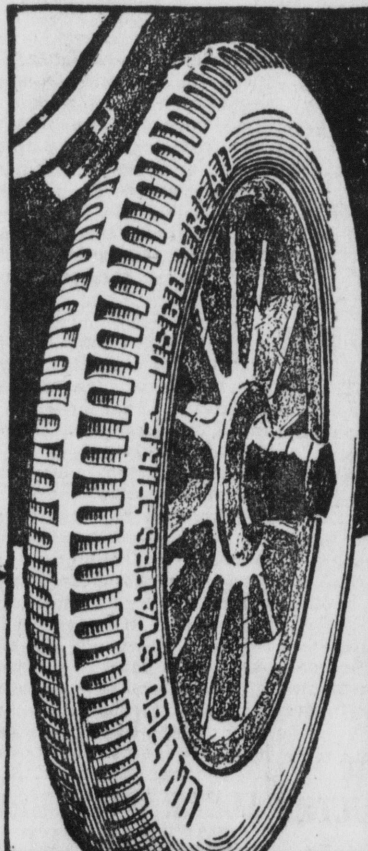

Let us prove this to you by a demonstration on your own farm. Just phone us or drop us a card.

THE U.S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

From the makers of U.S. Royal Cords to the users of Fabric Tires

In all of modern merchandising the biggest conundrum is the fabric tire situation.

Around 70% of all car owners use fabric tires.

Their instinct for quality is as strong and insistent as any one else's.

Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

Sooner or later the public always seeks out quality. As a matter of self-protection—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

People have gotten very close to the U. S. policy. Felt it. Benefited by it. And passed the word along.

It's a policy settled to one standard for all U. S. Tires. Whether fabrics or cords. Small sizes or large.

Giving to the fabric tire user fresh, live tires. Being made now. Being shipped now.

All the original U. S. vitality and service comes through when you buy a U. S. Fabric Tire.

"Usco," "Chain," "Nobby." Three different treads.

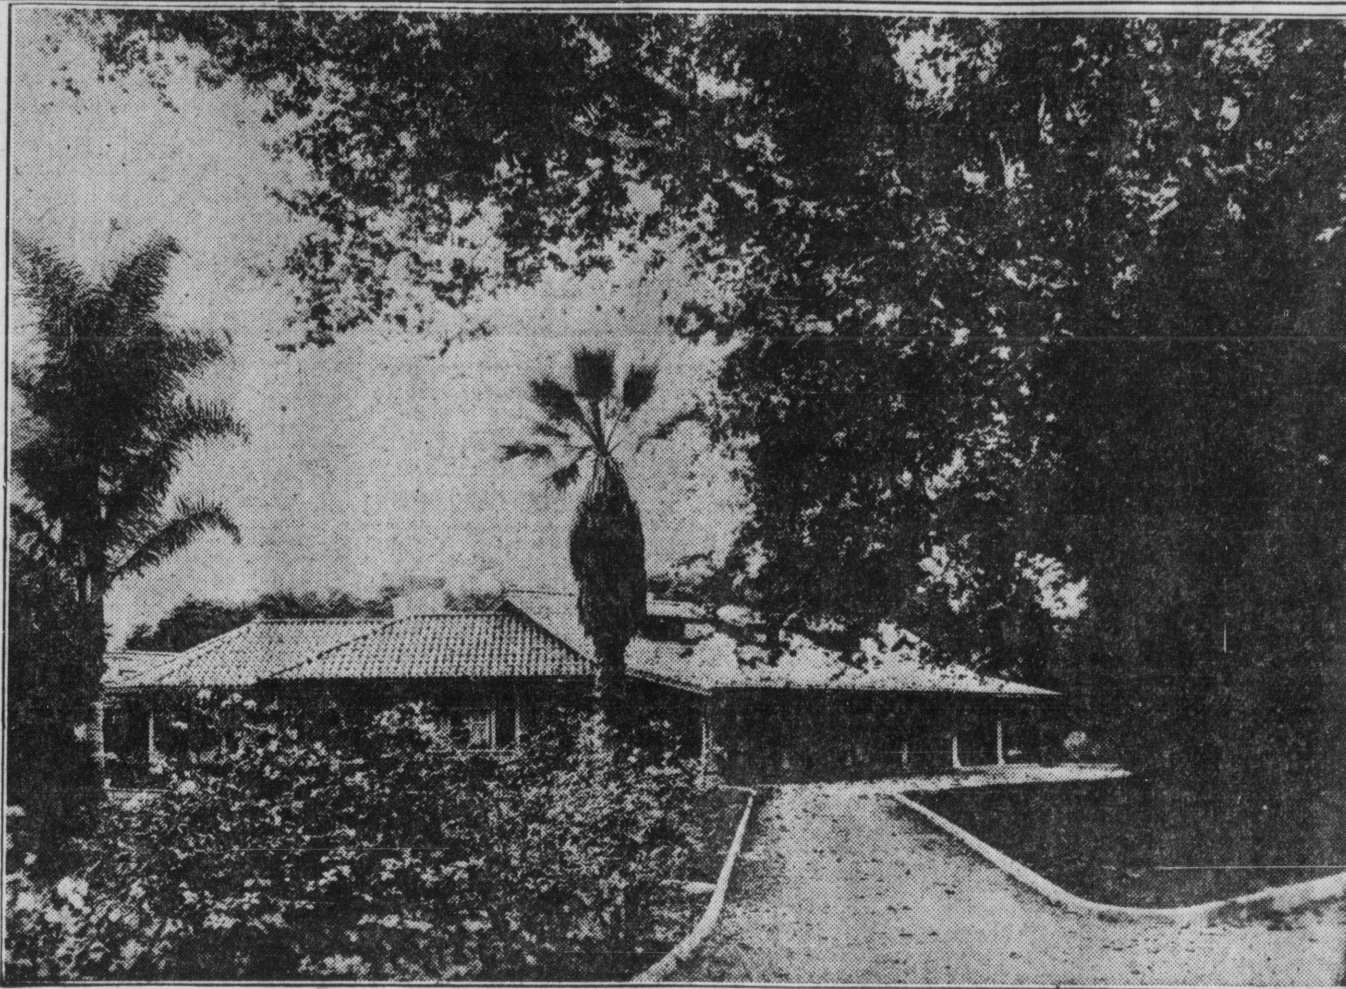

Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the standard measure of tire worth.

SPECIAL SERVICE BY
REGISTER CORRESPONDENTS

ANAHEIM PLANS
TO ATTEND
PAGEANT

ANAHEIM, Aug. 17.—Anaheim Chamber of Commerce in return for the kind feeling shown by the artists of Laguna Beach, at the First Annual California Valencia show, in placing an art exhibit of value of not less than \$50,000 in the safe-keeping of Anaheim, takes pleasure in notifying the local public that an excursion to the "Peace Pipe" pageant, now being held at Laguna Beach, will be carried out next Friday night, August 19, which it is hoped at least fifty auto loads of interested persons from here will attend.

Those willing to make the trip, in return for the kindness and co-operation shown by this great artist's colony, who are striving to do something dignified and artistic for this great Southland, will kindly indicate by telephoning 665, stating their load, at the rate of \$1 per capita, children correspondingly less. The Kiwanis and Rotary clubs are behind this movement for the unification of Orange county. Let all who will, join quickly, say the clubmen. The show is worth the money and the trip is one of the loveliest in the world, and the moon will be full!

BIDS FOR SCHOOL
LOCKERS ARE WANTED

HUNTINGTON BEACH, Aug. 17. The board of education of the Huntington Beach union high school will receive bids on 250 Durand steel lockers or the equal, with the following dimensions: 15 inches wide by 15 inches deep, 2 feet 14 1/2 inches high, equipped with Yale and Towne locks, two keys per locker, and master key, and 6-inch metal base. Also 36 Durand steel lockers, or the equal, with following dimensions: 12 inches wide by 15 inches deep by 42 inches high, double tier, equipped with Yale and Towne locks, two keys per locker and master key. Also one York fire safe, or the equal, with the following specifications: Inside measurements, 40 inches high, 24 inches wide, 18 1/2 inches deep, 15 1/2 inches depth of cabinet, equipped with combination lock.

Delivery must be guaranteed by the opening of school, September 12. The bids will be opened Friday evening, August 26, at 7:30, at the office of the high school at the high school building, Huntington Beach.

The board reserves the right to reject any and all bids.

ORANGE

ORANGE, Aug. 17.—The Rev. W. H. Galbraith and family, of Long Beach, were callers among friends on Monday.

Dr. Royer and party left Sunday by automobile on a two-months trip, going by San Francisco to Oregon and Washington and on to Montana. Jean Lighthall, of Strathmore, is visiting his uncle, Jay Harbor, of East Palmyra.

Walter Glessner of the K. E. Watson drug store, received reports today that he had passed most successfully the recent pharmacy examination.

Jefferson Cohee suffered the amputation of a great toe Saturday.

Otis Evans left tonight for Santa Paula on business.

Mrs. Frances Fletcher and Mr. Purcell Banning were in Los Angeles today.

Mr. and Mrs. Argus Dean and children of Nuevo who have been visiting the D. C. Pixley family of North Grand, for ten days returned to their home this morning.

C. C. Howe of Santa Barbara, was a business visitor here recently.

Neil Cook and son Gifford, of San Luis Obispo, are visiting at the home of Mrs. Catherine Fletcher on East Chapman avenue.

Miss Jennie Scott and Miss Ethel Stettin of East Culver street, left today for Kansas, where they will spend several months.

VILLA PARK

VILLA PARK, Aug. 17.—Mr. and Mrs. J. B. Handy, Miss Zelda and Masters Owen and Bruce Handy are home from Laguna Beach, where they have been since school let out.

Mr. and Mrs. W. A. Knuth, Mrs. Ellen Holditch and Miss M. J. Holditch were Los Angeles visitors on Thursday.

Mr. and Mrs. Tom Walsh of Compton were visitors at the home of Mr. and Mrs. L. O. Hanselman on Friday evening.

Mr. and Mrs. Riley of Spreckels arrived on Friday evening to visit with relatives here and at San Juan Capistrano.

Mr. and Mrs. F. H. Collins and Virginia and Miss Velda Morrison drove to Hollywood on Saturday evening and spent the night with Mrs. Collins' parents, Mr. and Mrs. J. W. Morrison. Miss Velda Morrison, who has been here for some time, remained in Hollywood.

Mr. and Mrs. Walter L. Adams, Velma and Clarence Adams, Miss Nellie Adams and Mr. and Mrs. A. E. Hughes left Friday evening to spend the week-end camping at Mill creek.

Saturday evening the paving was down on Center drive to Lincoln avenue, and they expect to have it finished by the coming Saturday. Wanda street is being graded and will soon be ready for paving.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

PROMINENT YOUNG
COUPLE UNITED IN
QUIET CEREMONY

COSTA MESA, Aug. 17.—Edward L. Bennett and Miss Mary E. Smith, both of Costa Mesa, were married Friday afternoon in Santa Ana by the Rev. J. A. Stevenson, of the First Presbyterian church.

After the ceremony they returned to Costa Mesa and assisted at the carnival that was given by the Loyal Workers' Sunday school class of which they were both members, no one questioning the nature of their afternoon trip to Santa Ana.

At the close of the carnival they left for an auto trip, their destination and return known only to themselves.

The bridegroom is the son of Mr. and Mrs. James Bennett and owns a ranch adjoining his father's. He served in Co. L of the 160th infantry during the World war and saw service overseas. Mr. Bennett is a young man of sterling qualities and his friends are legion.

The bride, who is a niece of the Rev. L. O. Bostwick, is a charming and accomplished young woman who makes friends wherever she is by her winsome personality. She came here last year from Michigan and taught in the Harper school and had been engaged to teach the coming year.

This splendid young couple have the best wishes of their host of friends for a happy and successful voyage through life.

FUN, FAKE, FEAST
FURNISH FINANCES

COSTA MESA, Aug. 17.—The carnival held Friday evening by the Loyal Workers Sunday school class was a splendid success in fun, fake and finance, all of which the promoters of the carnival intended it should be.

A small fee admitted all to the main tent, where sweet music was furnished on mandolin and guitar and where pop-corn, ice cream, candies, "hot dogs" and lemonade were served to the hungry and thirsty, each concession doing a thriving business.

When the booths containing freaks, fakes and curiosities, such as the "wild man," who was planned by J. H. Rochester and made a splendid hit.

The negro minstrels pleased everybody, as did the trip around the world and to Peking, China; the remains of "Long-feller," the man-eating fish and the only twin ground-hogs in captivity.

The booth "for men only" and the "switch tenders" all received a splendid patronage and the shouts and laughter of the visitors at every booth was ample evidence of their enjoyment.

And the "fish pond" was besieged literally by anglers, for all were assured of a catch.

The class appreciated the splendid patronage and feel well rewarded for their effort in giving the people an evening of amusement and at the same time netting a profit of more than \$40 for their class treasury.

FINDS INTEREST IN
OVER-BORDER JAUNT

WESTMINSTER, Aug. 17.—Miss Opal Stoves, who, with her parents, is visiting in Washington, has written to friends an interesting account of their trip into British Columbia, where they spent one night.

En route from Seattle arriving at Tilchuck, they visited a cousin in a lumber camp and saw many large trees, one large enough for the car to pass through. At Blaine, on the border line, a fine arch has been erected, which is to be electrically lighted and which is to be dedicated in a few weeks. It is built of cement and bears this inscription, "Children of a Common Mother, Dwelling Together in Unity."

After procuring their clearance papers they finally arrived at New Westminster, a long distance from the Westminster they started from. They followed the King's highway past the Queen's park and camped at Central park, on the edge of Vancouver. They found plums and peaches thirty-five cents a dozen and everything accordingly high, except bread.

Six U. S. warships had just arrived to take part in the Caledonian games, and a great deal of excitement prevailed.

The Stoves are now at Kelso, Washington.

TALBERT

TALBERT, Aug. 17.—A. F. Swift cut his twenty-acre alfalfa field south of town this week. It proved an extra heavy crop, being so thick the mower cycle could scarcely move through it. Two tons to the acre is the estimate.

The dirt road running north and south directly through Talbert was greatly improved for a distance of half-mile, from the beet dump, north to the aMtel market the past week, by a quantity of oil which laid the dust.

Sam Talbert has finished harvesting his thirty-acre field of beets east of the P. E. Tracks and has commenced taking out beets on the home ranch.

R. Courreges has as a guest for a week his niece's son, Val Jaynot, of San Francisco, who arrived Monday.

Ray Wardlow and daughter, Helen, who are confined to their home with typhoid fever, remain in much the same condition at the last report and it is stated that the turning point would not be for several days yet.

Harry Fulton began Wednesday on the harvest of his twenty-acre beet field.

WINTERSBURG

WINTERSBURG AND SMELTZER, Aug. 17.—Roy Davis, dumpman at the Co-operative beet dump north of Smeltzer, suffered a severe injury Saturday when he slipped from the tongue of a trailer wagon, cutting a long gash below the knee, which struck on the iron lining of the tongue.

He was taken at once to the sugar company's physician and it was found necessary to take nine stitches to close the wound. Davis is doing quite nicely now and every precaution is being observed in the care of the injury.

The other three men of the crew are substituting in his place, as needed, during his absence.

Ruth Harper and Alva Titus, of Talbert, visited Mrs. Lena Patterson Friday.

Mrs. D. W. C. Dimock entertained as her guest for the day Saturday her niece, Mrs. Walter Rozelle, and baby daughter, of Compton.

T. J. Lewis, father of Wilfred Lewis and Mrs. C. Dimock, of this place, left Tuesday morning with Mrs. Lewis on a two weeks' outing at Big Bear.

Engine, Pump and Windmill Repairing. Phone 228-W after 7 evenings. J. G. Limbird, 324 Halesworth St.

WORLD WIDE GUILD
GIRLS ENTERTAINED

GARDEN GROVE, Aug. 17.—Mrs. Garfield Allen and Miss Thelma Emerson entertained the World Wide Guild girls of the Baptist church at the latter's home Monday afternoon.

Mrs. Allen and Miss Emerson were the former counsellors for the guild girls and Mesdames Grigs, Wade and Gleason are the new appointed counsellors.

A short business meeting was held and a nominating committee appointed.

After the business session a "bean party" was enjoyed. Each member had brought a pound of beans and different games were played with the beans and bean-bags made and filled to be sent to a Los Angeles mission. About twenty pounds of beans were left to be sent to the Armenians.

Twenty-four members were present and a luncheon of beans and brown bread was served.

The King's Daughters class of the Baptist church will hold a cooked-food sale all day Saturday in the Wheeler meat market.

Mrs. W. W. Blair and children returned home Sunday from Alhambra, where they attended Adventist camp meeting the past two weeks.

Mrs. D. C. Hogue and two children returned home Sunday from Ontario, where they spent a week with her sister, Mrs. A. Walline.

Mr. and Mrs. Ed. Pearson and two children, Miss Cardine Ball, Mr. and Mrs. E. G. Edmunds and daughter, Jean, and Mrs. M. P. Edmunds motored to Seal Beach Sunday.

Miss Caroline Jorgenson of Los Angeles, spent the week-end with her mother.

Mr. and Mrs. S. S. Jackson, accompanied by Mrs. George Head and daughter, Miss Mable, attended the Pageant Play at Laguna Monday evening.

The Misses Hazel Fuller and Hattie Brownlee spent Sunday at Huntington Beach.

Mr. and Mrs. T. C. Natland and two sons, Miller Gillrath and Mr. and Mrs. H. P. Christensen and son of Tustin, motored to San Juan Hot Springs Sunday.

Mr. and Mrs. Frank Monroe and the former's mother and E. Edmunds and family expect to leave on a ten days' motor trip to Yosemite Saturday.

Mr. and Mrs. S. S. Jackson expect to leave Thursday for a week's vacation at San Anita canyon.

Mr. and Mrs. G. R. Reuburn and Mrs. Martin and daughter, Miss Mildred, of Los Angeles, spent from Monday afternoon until Tuesday at Laguna Beach, Monday evening they attended the pageant play.

William I. Cain, of Whittier, was a dinner guest at the S. S. Jackson home Sunday. His little daughter, Virginia, accompanied him home after spending several days with her grandparents.

Mr. and Mrs. Ralph French and baby, Mr. and Mrs. George Miller and baby, Frank Thompson and Leo Grogan, of El Centro, spent Sunday at Huntington Beach.

WOMEN IN HOMES AND SOCIETY. Countless women devote their whole lives to their homes, while others are in the business world, or find happiness only in society.

Whether you are a home woman, a business woman, or a society woman, you know how hard it is to "drag along" day after day, suffering aches, caused by some female derangement that has developed from overtaxing your strength. The natural restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which for nearly half a century has been considered a standard remedy for woman's ills.—Adv.

EVENING SALUTATION

His be the praise, who, looking down with scorn
On the false judgment of the partial herd,
Consults his own clear heart, and boldly dares
To be, not to be thought, an honest man.
—Cumberland.

SQUARENESS IN SPORT

The verdict of the Chicago jury, acquitting the White Sox players in spite of their own confessions of guilt, is incomprehensible except from a purely legalistic point of view. What the verdict really means is not that the jury does not believe the accused players conspired to "throw" the world's series games in 1919, but that the jury does not find such conspiracy a criminal offense under existing laws.

Perhaps the sport-loving public is more sensitive than the law. At any rate, sport itself is on a higher plane than legal statutes and court procedure. Accordingly Judge Landis, arbiter of baseball, won widespread approval when he announced that "regardless of the verdict of juries, no player that throws a ball game, no player that entertains proposals or promises to throw a game, no player that sits in a conference with a bunch of crooked players and gamblers where the ways and means of throwing games are discussed, and does not promptly tell his club about it, will ever play professional baseball again."

Here is a remarkable demonstration that sport has a cleaner code of ethics than law. Courts may acquit crooked players, but they are not acquitted by informal tribunals administering sporting law, nor by the higher tribunal of public sentiment.

There is a tendency sometimes on the part of "highbrows" to scoff at the intense interest in sports which prevails in America and England and is reflected in the large space given to sporting affairs in the newspapers. What supercilious critics overlook is the fact that sports, amateur and professional, as conducted in Anglo-Saxon countries, constitute one of the biggest and most wholesome influences for justice and morality found in any department of human life.

Incidentally, it may be remarked that if the Illinois state laws do not make a conspiracy to throw a baseball series a crime, it has an opportunity to make a statute that will meet with general approval.

The new taxation plan proposes to increase the burden on medium-sized incomes. Same old story. In trade, the middleman makes the most, and in taxation the man in the middle pays the most.

DELIBERATE RATE-LOWERING

While everybody is demanding lower prices, Henry Ford has run up against a strange obstacle in that direction. He could lower automobile prices as much and as rapidly as he wished, but he has to be careful how he lowers railroad rates. Governmental authorities will not stand for any undue haste.

Ford wants to lower certain freight rates 20 per cent at once on his recently acquired Detroit and Iron-ton railroad. Applying to the Interstate Commerce Commission for authority, which he supposed was a mere formality, he was astonished to be told that he could not reduce the rates more than 5 per cent a month. Such graduation of his rate-cutting, it was explained, was necessary in order to give competing carriers a chance to revise their own charges with due deliberation.

Possibly it is all right. The Interstate Commerce commission usually has pretty good reasons for its rulings, however incomprehensible they may be to the inexpert. It does seem, though, as one newspaper critic intimates, that the commission is sometimes disposed to gauge its rate-fixing by the standards of inefficient or over-capitalized roads rather than by the standards of the honest and competent.

Naval men maintain that at least all obsolete ships must be replaced by modern warships. What the people want is to make all warships obsolete.

UNSTABLE RUSSIA

The Russian National Society, an organization representing anti-Bolshevik Russian sentiment in this country, has issued a statement that the Soviet government faces ruin. Its armies cannot be relied on and economic chaos increases. The information is held to be authentic, based on carefully gathered data.

Still another report states that the provisional government (anti-Bolshevik) established in Vladivostok, and said to have the tacit backing of Japan, has issued notice to all whom it may concern that all the concessions claimed by Washington Vanderlip and his backers in Kamchatka are null and void.

There is little doubt that there is a crisis pending in Russian affairs, and until the further opening of doors allows the truth to be known more definitely it would certainly be poor business and poor statesmanship for this country to entangle itself with the Soviet government.

REINCARNATION

It is intriguing, as an English novelist would say, to learn from a recent volume of so-called Theosophic revelation that Theodore Roosevelt was a governor of Chaldea 30,000 years ago, appointed by Julius Caesar, who was then king of Persia. It will be news to ordinary historians that there was any Chaldea in Persia 30,000 years ago, but let that pass.

Cicero is said to have come back to earth as Gladstone. William of Normandy is identified with Kitchener of Khartoum, Annie Besant, with Hypatia, Tennyson with Virgil, etc.

A student of history may find many points of similarity between most of these pairs. Annie Besant herself, head of the Theosophical Society, is said to admit having been the philosopher Lady of Alexandria. Tennyson might be a diminished Virgil, though it must be embarrassing to him, away up there in Devachan, if he realizes that when he called Virgil "wielder of the stateless measure ever molded by the lips of man," he was handing encomiums to himself.

The more alike these pairs of personages appear, however, the more perplexing the whole business of reincarnation becomes. As far as the ordinary or garden variety of intellect is able to understand the working of the law of Karma, which is supposed to regulate these things, what reincarnation is for is to bring human beings back to this earth expressly to enable them to live a different kind of life and gather experience along new lines, in the long process of learning for themselves and thus attaining full knowledge and perfection. To what purpose, then, should a

ruler or poet or philosopher come back to do the same things over and over again? Can there be such Karmaic ruts? Are not all of us, according to the original Theosophic teachings, supposed to become rulers, poets, philosophers, athletes, scientists, musicians and everything else, in the fullness of time?

"Karma," says a teacher of occultism, "is the study of sages."

The doctrine of reincarnation may be true. Hundreds of millions believe it true. As a hypothesis, it answers many otherwise unanswerable questions, particularly regarding the origin of the qualities people are born with, the justice of life as we find it and the destiny of mankind. But alas! We fear that some of these glib exponents of Karmaic genealogy are not sages.

Captain Feared the Sea

San Francisco Chronicle

Captain Harry Hobeys feared the sea. Yet, in defiance of his fears, he made it his calling to dominate this misty world in his heart of hearts he felt sure would one day drag him down. And when the time came he looked only on the high traditions of his rank and place and went down without a trace of fear. He triumphed over fear and thus over death.

Captain Hobeys could not swim. This, too, is a tradition of the sea. Sailors ever have been notorious for their helplessness in the water. Confident in the timbers under them, they scorn to learn the swimmer's art. Sure of their skill to navigate a bit of wood or steel over the waves they neglect the chance that they might have to battle through them with no curved shell to buoy.

Sailors and Eskimos, two races that most use the sea, can not swim. Riding the crankiest canoe that ever put out into open sea, forced to the last degree of skill to master the waves, the Eskimo has never developed the insurance of swimming. Perhaps the art would be of little use in the icy waters of the Arctic. And he is a fatalist, and the sailor too. Captain Hobeys believed that his end lay in the sea and when it came he accepted it as his predestined doom.

Was Disaster Avoidable

Long Beach Press

That the steamship Alaska was wrecked because of careless speeding in a heavy fog is being asserted by passengers of the fated vessel. The third assistant engineer, who was on duty when the vessel struck Blunt's Reef, admits that the Alaskan was proceeding under full speed when it struck the rocks. It also was testified by a passenger, at the coroner's inquest, that the crew became demoralized in handling the lifeboats. It also was asserted that the lifeboats were not in proper condition.

These allegations and admissions are very grave indeed. They provide basis for a drastic inquiry, which should be conducted promptly by federal authorities. Investigation is under way. Here was a tragedy costing a number of lives. It came when no violent storm was raging—when the elements were propitious for a safe voyage. A thick fog hung over the course of the Alaska, it is true. But cautious navigators rob fogs of their terror by extraordinary precautions. Going full speed in a fog is not prudent navigation. This admission of a responsible officer of the Alaska is startling. Inquiry should determine whether or not this admission is correct and whether or not it is the practice of navigators along this coast to speed in fogs—whether or not if they did not lead to better precautions for the safety of those who travel the seas.

An Epic of Imperial

San Diego Union

Some day a great poet will be born in Imperial county and he will be inspired to write an epic about it—perhaps even at this moment he is kicking in a cradle of Brawley or El Centro or Calexico or Holtville; and, perhaps, although it is not the habit of women poets to write epics, the great poem will be written in this instance by a poetess. It doesn't matter, however, who writes it.

The epic will concern itself largely with the beginning of things in what we now call the Imperial Valley—how for eons there was a great sea over all the land from the ocean into the region of what we now call San Bernardino and far eastward in Arizona; and how the land rose and the sea receded and how for more eons there was only a vast desert where the great sea had been. This part of the epic will tell about the brooding silence of that great desert, the silence of blazing noonday and the silence of wonderful nights under the eternal stars; and it will tell about the living things that crawled and moved and grew and leaped in the desert—the horned toad, the sidewinder, the chuckwalla, the roadrunner, the lean lizard and the Gila monster. Through this part of the epic, like a silver thread in an expanse of golden brocade will run the story of the Colorado river bearing its treasure of silted soil from the continental uplands and spreading it out like a magic Arabian carpet over the desert to make an oasis where happy mortals may live and the dream that come true. Then, when more and more eons have rolled by man will come to the desert place and build cities on the sand and plant vines and trees and water them from the river rolling by and for his labor reap prosperity and the assessors will fix the values of man's labors at many millions, and distant markets will consume the fruit of his labor weeks before other regions have begun to harvest their golden hoards; and when those other regions have no hoard to harvest the epic will tell how there was an abundance in the Valley of the Empire.

Perhaps the poet will call his poem "Destiny," or "Evolution," or "The Loom of the Gods"; it doesn't matter, for it will be a name appropriate to the story of the epic, and it will be a good epic by a great poet.

Editorial Shorts

The man who is not today heart and soul for disarmament, either has an ax to grind or an enemy to kill.—Western Mineral Survey (Salt Lake City).

It almost seems advisable that the people elect two presidents every four years; one to shake hands, talk, meet the public and lay corner stones; the other to be president.—Portland Journal.

If every man has his price, a fellow naturally feels cheap when he gives himself away.—Chicago News.

The population of the United States is 15 per cent denser than it was ten years ago. Judging from some things the people fall for, we have feared it was worse than that.—Poughkeepsie Star.

"Loved His Still Better Than His Wife," remarks a headline. Perhaps he'd have loved his wife better if she'd been still.—Buffalo Express.

You can get 100 German marks for \$1.31, and the Germans will print as many of them as you are willing to buy.—Indianapolis News.

Local bootlegger hootch has changed its tactics. Wasn't long ago when its effect almost killed the drinker. Now the effect is that the drinker tries to kill someone else.—Martinez Gazette.

"Isn't a telephone girl's occupation a calling?" asks the Philadelphia Bulletin. No; as far as our experience has shown, it's a "busy!"-ness.—New Orleans Times-Picayune.

About This Time o' Year

Today's Talk

by George Matthew Adams

WHY WAIT?

It is a fine thing to hang in the gallery of your mind the picture of perfection.

I was looking through a magazine the other day, and came across the story of a great industry. The first product was illustrated, and alongside this product was shown another picture—its development of today. Twenty years had intervened. The place of this great industry's inception was also shown—a mere hut of a building—and contrasted with this, its present acres of factories.

The early invention looked crude indeed. And yet at that time it was considered a wonderful advancement. Had the inventor been satisfied, and waited until he had achieved perfection, the story in that magazine would never have been written.

Why wait? If you have an idea, put it to work. Tomorrow you are bound to know more than you know today—but don't wait until tomorrow to find out.

Before me hangs a beautiful painting. I know quite intimately the history of the artist who painted it. For twenty-five years he has been working, practically in obscurity. Only this year was he elected to the most noted art organization in his country. Every year found his paintings greater. But he never waited for fame—he worked for it.

We must work in the spirit of anticipation—not in that of satisfaction. If we didn't do the little things in the best way we know how, we would never have any idea how to tackle the big things when they loom before us. Why wait for things to turn up?

The world will never wait for any man—why should you wait for any thing?

The Velvet Hammer

BY A. B. B.

NEIL H. EDGAR

He says the Oakland auto with its neatly nickled rim is not a danger to your life, your pocketbook or limb. Its six delightful cylinders are in a modest class. It's not a pig for oil and tires. It's easy on the gas. And as for climbing courthouse steps or passing flocks of fairs, he properly refers you to the information scores.

In partnership with Bruce Hayes, Neil Edgar sells the six which copies, so he says, a more expensive motor's tricks, but doesn't ask the well known price the other cars demand; nor speak a language few mechanics understand; while as for lasting qualities, accept his solemn word, in sundry years from now it will be running like a bird.

He is, observers all agree, a grand, good-natured man who wisely left his former home in Detroit, Michigan, for while they make motors there so many know so well, to California's the place they ship their cars to sell. But let us not suggest a theme for envious debates about the well known merits of these two distinguished states.

Worth While Verses

THE WOODS

Here lift the woods, the strong, damp fingered woods,
Where pipes are sweet and one can match his moods
To fairy fire, crisp feathered on his logs. . .
Here are no city things—no demagogues,
No loud iconoclasts, no noisy trade,
No soap box godliness in shrill tire,
No begging shufflers, no lambent speech. . .
All these are of the crowd and out of reach,
For crowds hear not the red voice of desire,
They love not woods, nor pines, nor fairy fire.

Leaning along the pungent night are trees,
Full prescient of new discoveries.
And going down the dark by one and one.
Like minstrels tired of singing in the sun,
The weary shadows creep in eerie bars
That melt into the music of the stars.

Here in the woods the timid hearted crave
The glad uncertainty of being brave,
And treading onward find each step a door
To beauty that was never seen before,
And every glade as strange a rendezvous
As some great room that God has just passed through.

—Thomas Hornsby Ferrill, in the Denver Times.

How Is Your Health?

By Uncle Sam, M. D.
Send health questions to Information Editor, U. S. Public Health Service, Washington, D. C. Give name and address and you'll receive a personal reply.

Hay-fever is caused by breathing into the delicate passage of the nostrils the pollen, or fertilizing powder, that grows on wild, useless weeds.

Rayweed is the commonest cause of hay-fever. In the greater part of the United States, east of Kansas, the common rayweed is the trouble-maker. In the moist areas of this same section the giant ragweed causes the disease. In the country west of Kansas, the western ragweed is responsible. Other weeds, such as the marsh elder, also cause hay-fever at this time of the year.

The disease is an affection of the upper air-passages. Symptoms in the early stage resemble those of a cold. There is more sneezing, however, than in the case of a common cold. The nostrils become choked, due to the swelling of the lining of the air passages. There is a slight fever at first and later a tendency to sub-normal temperature. Many cases are complicated by asthma, which increases the suffering of the patient.

To avoid hay-fever, persons usually attacked by it should see that all tall grasses and weeds, especially ragweeds, near their home, are kept cut. If the neighborhood cannot be cleared of hay-fever weeds a temporary change of residence will give relief in the pine forests, others may be aided by a temporary visit to a more central part of their home town—a half mile or more from sections where uncut weeds abound. Sufferers should avoid unnecessary exposure to pollen. Roads passing near sections full of grass and weeds while in bloom are usually full of pollen which is inhaled with the dust. An hour's drive in the country may mean a night of suffering.

Vaccines now are also used to prevent the disease. Some of the vaccines are used from the pollen of the more important plants. In either case treatment should be under the supervision of a competent physician.

Time to Smile

QUITE DIFFERENT.

Young Willie Wawsverk had not been to school for a whole week, hence the visit from the truant officer, who demanded of Willie's mother the cause.

"Well, if you must know," she answered, "he's past his thirteenth year, an' me an' his father reckons he's had schooling enough, sir."

"Schooling enough?" echoed the officer. "Do you know, madam, I did not finish my education until I was 23?"

"Yer don't say!" said the mother in astonishment. "But, then, yer see," she added confidentially, "that boy of ours has brains!"—Pittsburgh Chronicle-Telegraph.

COUNTRY HUMOR.

"Pretty hot, farmer," remarked a vacationist to an old fellow on a blazing day in July.

"Yes," was the reply. "If it wasn't fer one thing I'd say we wuz goin' to have a thaw."

"And what's that?"

"Thar ain't nothin' froze, by gosh."—Boston Transcript.

IRRESISTIBLE CHARM.

"Do children enjoy the comic supplements?"

"Undoubtedly," replied Miss Cayenne. "Even those who don't quite appreciate the humor enjoy seeing dear little tots like themselves portrayed as blowing up their parents and guardians."—Washington Star.

Saving the Hawaiians

San Francisco Chronicle

Congress has passed an act looking to the rehabilitation of the Hawaiian people if that be found possible. Public lands are to be subdivided and allotted to families, and any expense involved taken from the rentals of lands already occupied by sugar plantations. This so-called Hawaiian homes act was passed in the hope that that remnant of the race which once owned the islands which we now occupy may be saved and made self sustaining. At present this people is rapidly dying out.

If the race can be saved it is a humanitarian duty which devolves upon us. Like other South sea islanders, they were living and thriving according to their ideals when we found them. Undoubtedly, they would have continued to do so had the whites who discovered them sailed away and never come back. They were inhabiting islands on which a very simple life could be lived with almost no effort, and the races had adapted themselves to their environment and were content.

Some vestiges of virility were maintained by the continuous petty fighting which, partly from ineffective weapons and partly from constitutional laziness, were not very destructive of human life. In contact with whites they are all disappearing.

To put the Hawaiians in a condition to sustain themselves in the struggle for life they must be reconstructed. It is not certain that it can be done. The people are mentally bright. There are no brighter pupils than Hawaiian children of the public schools. But, having graduated with honor at the high schools, they tend to go back to living on fish and poi, with all that that implies. They lack initiative and energy and power to resist disease, and whether that can be bred into the race is uncertain. But it is our duty to do all in our power to encourage that and it is a duty which we shall discharge with most hearty good will.

Ma was making a clam chowder on account of pop having bin asking her to for about a month, and I was setting there watching her and I sed, Holey Smoaks, ma, thats the 3rd time you put salt in.

O my goodness, I must of bin thinking of something else, sed ma. Maybe you was thinking of pepper, I sed, And ma taisted the clam chowder, saying, Well, its pritty salty, there s no doubt about that. O deer, wat could I of bin thinking of?

Maybe you was thinking of parsley, I sed, And ma gave me some to taist on a spoon, me saying, Well, it dont taist as salty as jest plane salt, Wich it didnt but it pritty neer did, and ma sed, O shah, your father will come home with his mouth all set for clam chowder and if he thinks its too salty it will spoil his hole supper, now for goodness sake Benny dont let on its salty and maybe he wont notice it, and besides, it reely could be saltier.

And wen my sister Gladiss came home ma told her not to say anything about the clam chowder, and wen pop got home we started to eat supper, Pop sniffing upwards and saying, Ah! the heavenly aroma of clam chowder, the king of foods and the food of kings. And he started to eat his with a hopefull expression and changed it to a surprised expression after the first spoon full, saying, For the love of the Grate Salt Lakes.

Why, wats the matter, Willyum, wy? sed ma acting as if she didnt know and looking as if she did, and pop sed, This izent clam chowder, its salt chowder.

Now Willyum, dont be redickless, you must imagine it, sed ma. And she ate a spoon full of hers with a expression as if it was one of the greatest spoon fulls of anything she ever had in her life, and me and Gladiss both ate a spoon full of ours and tried to look as if we wasnt thinking of salt, and pop started to look hopefull agen, saying, Well, maybe I did jest happin to get an accumulation of salt that first shot, if at first you dont succeed never give up the ship.

And he ate another spoon full and put both hands up in the air, saying, I serrender, coase firing, and me sed, Well, if youre going to make faces like that I wont eat mine either, I cant enjoy mine with you carrying on like that about yours, and Gladiss sed, Well then I wont eat mine either, and I sed, Well then me neither.

Wich we didnt.

Chapter 116

JENNY WREN OUTWITS THE ENGLISH SPARROW

By Harvey Elliott

The next day, after the paint was dry on the new doorway which Tommy Smith was making for Jenny Wren's house, he took it out to nail it on. He placed a little ladder against the woodhouse and started to climb. When he reached the little Wren cottage he met an interesting surprise.

"Hello! what's been going on here?" said Tommy, as he looked in the little doorway. "Looks like that Bluffer of a sparrow has gotten his nest built in that house already. I'll mighty soon tear it down."

But as Tommy was about to tear out the nest, out came Jenny Wren through a tiny little hole at the side of the nest, lighted on the woodhouse roof and sang her happy little song. That convinced Tommy Smith that it was after all Jenny's own nest. He couldn't understand how she had overcome the opposition of Bluffer the English Sparrow.

As Tommy examined the little doorway he saw how Jenny Wren had shut Bluffer out of the house. As Tommy stuck his finger into the doorway he pulled it back in a hurry.

"Ouch!" he said. He had struck a sharp, pointed bit of wire, one of the clippings of the fencing that lay about the chicken yard. "Ha," said Tommy. "Guess those Sparrows won't work along on Jenny Wren's wire entanglements. Just look at them!"

There were about that little doorway no less than ten sharp pieces of wire so arranged that a fat dumpy sparrow couldn't get in, no matter how hard he tried. One attempt would stick him so badly that he wouldn't want to try it again. But there was room enough between for Jenny Wren and her husband to squeeze through without any trouble.

Now Jenny did two clever things in building this nest. First, she laid out wires, sticking the ends out of the door, so that a larger bird couldn't get in. The second thing she did at the same time was to lay these same wires a fine foundation for a nest which she wanted to make level with the doorway.

Tommy Smith didn't nail on his new doorway to Jenny Wren's house. He saw that Jenny had invented one of her own which was far better and took a good deal more skill to prepare. So Tommy climbed down, took his ladder back into the woodhouse and threw his little painted board back into the corner, saying, "I guess Mr. and Mrs. Wren are able to take care of themselves."

Some of the tiniest little people which God has made have been given the ability to do some of the most wonderful things.
